

COMPLETE PLANS FOR PROBE TO PLACE BLAME FOR EASTLAND DISASTER

REDFIELD TO CONDUCT FEDERAL END OF INVESTIGATION

Efforts to Remove Victims from Wrecked Ship Continue--Some Predict Death List Will Creep Up to 1,200--Detectives Seize Tickets Taken from Passengers Boarding Eastland and Estimate that There May Have Been 2,800 on Board.

CHICAGO, July 26.—Plans for investigations by federal, state and city official bodies to determine who was to blame for the capsizing of the steamer Eastland in the Chicago river aturday, with a loss of hundreds of lives, were completed tonight.

To Start Inquest.
A coroner's jury will start an inquest tomorrow, while federal departments, headed by Secretary of Commerce Redfield and officers from the police department and State's Attorney Macley Hoyne will proceed with the gathering of evidence, holding formal inquiry in abeyance until the inquest has finished its work as far as possible.

Meantime efforts are continued to remove victims of the disaster from the wrecked ship and to tabulate the dead to determine whether the total death list would remain around 1,000, as many believe, or creep up to 1,200 or more, as others predict. Registration of employees by the Western Electric company today showed nearly 400 missing, but many of the names of these were included in the list of 825 bodies already recovered and identified. It is said also that probably a goodly number did not report, although safe.

Seize Tickets Taken on Ship.
The probability of swelling the list above 1,000 was suggested by the announcement of detectives operating under State's Attorney Hoyne that they had seized the tickets taken from passengers boarding the Eastland for the excursion to Michigan City, Ind. They asserted that these tickets numbered 2,550 and that these did not account for children, musicians and the 72 members of the crew. They estimated that the total number of persons aboard the steamer might have been 2,800 or more instead of 2,480 previously announced by officers of the Indiana Transportation company, lessees of the ship, who had reported that 2,408 tickets had been taken.

Deputy Creary, deputy collector of custom, who, with two inspectors, counted the passengers as they boarded the Eastland, after reading Mr. Hoyne's statement, said it was impossible that 2,800 or more persons boarded the ship.

Terms Statement Ridiculous.
He also said it was "false and ridiculous" for Mr. Hoyne to state that children were not counted.

Mr. McCreary said the 2,550 tickets seized by State's Attorney Hoyne included some of the tickets taken from passengers intended for the steamer Petoskey, another of the excursion ships. State's Attorney Hoyne, in pursuing his investigation tonight, seized correspondence that had passed between officers of the Western Electric company's organization which was to have given the picnic and the Indiana Transportation company, operating the Eastland and four other steamers set aside to carry more than 7,000 persons across the lake on this excursion.

Mr. Hoyne asserted that this correspondence disclosed the fact that the steamship company had advised those in charge of the picnic that the more tickets sold the greater would be the rebate paid to the employees' organization. Tickets were to be sold to employees of the Western Electric company for 75 cents at the factory or \$1 at the wharf. According to the state's attorney the letters he took showed that there would be a rebate of one-third on all tickets over 4,000 and something less on those above 2,500.

Compelled to Buy Tickets.
Complaint already had been made by several employees of the Western Electric company that they had been compelled to purchase tickets for the excursion for fear the foremen who sold them would discriminate against them if they failed to go on the excursion. The picnic to Michigan City has been an annual affair and these men said that employees who had refused to buy tickets in previous years had been discharged, although probably without the sanction of executives of the company.

To the confusion of determining the total number of lives lost there was added much wrangling among officers of different jurisdiction over tentative plans to right the Eastland, which still lies on its port side

where it sank within 20 feet of the south bank of the river, which is 300 feet wide at that point, just west of the Clark street bridge.

Recover Twelve Bodies.

Despite an all day search of the hulk by divers and a constant dragging of the river bed between the wreck and a net stretched across the river a block down the current from the ship, only a dozen bodies were found today.

Estimates of the number still held under water by the boat varied from 150 to 500.

The steamer, with a beam of 35 feet, protruded above the water, which is 25 feet deep. This, divers said, indicated that the lower edge of the deck did not sink more than a foot into the mud.

Estimates by marine engineers showed that it would take from ten to thirty days to put the Eastland on its keel. It was said that until the ship was removed it could not be determined how many, if any, bodies had been caught under the hull and the superstructure. Plans to use dynamite in raising bodies embedded in mud were abandoned, for the time being for fear the explosions might destroy any evidence the ship could give of possible mismanagement of the water ballast system, said by several marine engineers to be the probable cause of the capsizing.

Places Architect in Charge.

Coroner Hoffman today placed W. J. Wood, a naval architect who has dubbed the Eastland "the crank of the lakes," in charge of all work at the wreck so that any evidence in regard to faulty construction of the ship or improper handling may be discovered and preserved while the work of recovering bodies proceeds. The coroner, the state's attorney and city officers today reiterated their charge that all the possible causes for the disaster could be blamed to negligence by federal inspectors or failure of federal officers to enforce marine laws.

The late inspection of the Eastland was made by Robert Reid, government inspector at St. Joseph, Mich., this spring, who declared the steamer fit and procured a position as chief engineer of the boat for his son-in-law, J. Merrickson.

Correspondence between Secretary of Commerce Redfield and William H. Hull of Benton Harbor, Michigan, vice-president and general manager of the St. Joseph and Chicago steamship company, owner of the Eastland, in regard to the effect enforcement of the new seaman's law would have in the Eastland, indicated that the department of commerce had not conceded anything which would tend to make the steamer less safe than law demanded.

Redfield to Come to Chicago.

Secretary Redfield, aroused by the catastrophe, will be in Chicago tomorrow to take personal charge of the department's investigation of the Eastland disaster. He is enroute tonight from Syracuse, N. Y., where he has been taking a vacation.

Solicitor Thurman of the department, armed with all the records relating to the Eastland left tonight to join the secretary.

Possibilities of a general reorganization of the steamboat inspection service were much discussed at the department today and it was indicated that something of the sort was to be expected soon.

Senator Lewis of Illinois, telegraphed both the department of commerce and justice department today that the statement published in Chicago was to the effect that the government had refused to countenance a federal investigation of the sinking of the Eastland and was shielding guilty

Members of the coroner's jury, six business and professional men, with Dr. W. A. Evans, formerly health commissioner of Chicago as foreman, also inspected the steamer and took personal views of conditions at the morgue. Identification of corpses that have been recovered was all but completed tonight. Checking against duplications in the various lists proceeded throughout the night. Funerals were held for a few of the dead today and many more are planned for tomorrow, but

most of the burials will take place on Wednesday.

Bishop McDowell of the Methodist Episcopal church and Bishop Samuel Fallows of the Reformer Episcopal church, took charge of the funeral sermon arrangement and gathered volunteer preachers to officiate at the obsequies of those for whom no other arrangements had been made. More than \$200,000 was subscribed during the day to alleviate any suffering among those who had lost their sources of support in the tragedy. While several families were almost wiped out, most of the households affected lost only one or two members. Many of the employees of the Western Electric company had been working on part time but with the aid of the National Red Cross augmented by funds raised locally, it is thought there will be no suffering for lack of funds.

Holds Other Ships as Dangerous.

William Olander, secretary of the Lake Seamen's Union tonight said that there were many other ships on the Great Lakes as dangerous as the Eastland, because of faulty construction. He held that the Eastland was not properly designed to be stable and that the water ballast system was not the main fault. He charged that United States inspectors under Captain Charles H. Westcott of Detroit, chief of the lake district, had played into the hands of ship owners at the expense of sailors and passengers. He said this was shown by the fact that thirty-one ships, passed by the inspectors, had sunk in the Great Lakes since 1905, several of them taking all on board to death.

This statement and others of a similar nature caused the investigators to decide to look into the conditions of all vessels issuing from the Chicago harbor. Captain Westcott has been subpoenaed by State's Attorney Hoyne to tell his side of the inspection of lake steamers.

Clash of Authority Develops.

A clash of authority between city and county officials developed tonight largely because city police had turned over to federal investigators what evidence the police had collected in regard to the Eastland horror.

A conference was held by the state's attorney, the coroner, District Attorney Clyne and other officers in the office of Chief of Police C. C. Healy to smooth out the affair and it was said after the meeting that some of the wrinkles had been ironed out. It was said that State's Attorney Hoyne felt as though he should be chief director of the local investigation and that the police and other city officers should aid him rather than the federal officers.

Interested in Getting at Cause.

The city heads, it is said, assured Mr. Hoyne that they were interested only in getting at the cause of the disaster and would aid him wherever possible, but would devote their main efforts to gathering evidence to help the coroner and the department of commerce.

District Attorney Clyne after leaving the conference with four federal marshals said the presence of the marshals did not necessarily prove that he had taken them in an attempt to get evidence which had been withheld by local officers. He said that the federal investigation would proceed despite any activity by State's Attorney Hoyne.

Chief of Police Healy said he was not in any way subservient to the wishes of the state's attorney and that the police would do all it could to aid the federal investigators to place the blame.

Redfield to Take Charge.

Washington, July 26.—Secretary Redfield of the department of commerce will arrive in Chicago tomorrow to take personal charge of the department's investigation of the Eastland disaster. He is enroute tonight from Syracuse, N. Y., where he has been taking a vacation.

Solicitor Thurman of the department, armed with all the records relating to the Eastland left tonight to join the secretary.

Possibilities of a general reorganization of the steamboat inspection service were much discussed at the department today and it was indicated that something of the sort was to be expected soon.

Senator Lewis of Illinois, telegraphed both the department of commerce and justice department today that the statement published in Chicago was to the effect that the government had refused to countenance a federal investigation of the sinking of the Eastland and was shielding guilty

Members of the coroner's jury, six business and professional men, with Dr. W. A. Evans, formerly health commissioner of Chicago as foreman, also inspected the steamer and took personal views of conditions at the morgue. Identification of corpses that have been recovered was all but completed tonight. Checking against duplications in the various lists proceeded throughout the night. Funerals were held for a few of the dead today and many more are planned for tomorrow, but

most of the burials will take place on Wednesday.

Bishop McDowell of the Methodist Episcopal church and Bishop Samuel Fallows of the Reformer Episcopal church, took charge of the funeral sermon arrangement and gathered volunteer preachers to officiate at the obsequies of those for whom no other arrangements had been made. More than \$200,000 was subscribed during the day to alleviate any suffering among those who had lost their sources of support in the tragedy. While several families were almost wiped out, most of the households affected lost only one or two members. Many of the employees of the Western Electric company had been working on part time but with the aid of the National Red Cross augmented by funds raised locally, it is thought there will be no suffering for lack of funds.

Holds Other Ships as Dangerous.

William Olander, secretary of the Lake Seamen's Union tonight said that there were many other ships on the Great Lakes as dangerous as the Eastland, because of faulty construction. He held that the Eastland was not properly designed to be stable and that the water ballast system was not the main fault. He charged that United States inspectors under Captain Charles H. Westcott of Detroit, chief of the lake district, had played into the hands of ship owners at the expense of sailors and passengers. He said this was shown by the fact that thirty-one ships, passed by the inspectors, had sunk in the Great Lakes since 1905, several of them taking all on board to death.

A clash of authority between city and county officials developed tonight largely because city police had turned over to federal investigators what evidence the police had collected in regard to the Eastland horror.

A conference was held by the state's attorney, the coroner, District Attorney Clyne and other officers in the office of Chief of Police C. C. Healy to smooth out the affair and it was said after the meeting that some of the wrinkles had been ironed out. It was said that State's Attorney Hoyne felt as though he should be chief director of the local investigation and that the police and other city officers should aid him rather than the federal officers.

War News Summarized

While there is a comparative lull in the fighting in southeastern Poland, there has been no diminution in the German attacks to the northwest of Warsaw and northward of the region over the Polish border.

Along the Narew the Germans have forced a crossing. Above and below the fortress of Ostrolenka the Russians are being slowly pushed back toward the Bug river and the Germans are advancing towards the fortifications around Novogorodsk and Warsaw. In southeastern Poland the capture of a large number of Russians is claimed by the Germans and minor gains in the Cheim-Lublin region.

The advance of the Germans southward from Courland through Kovno is making fair headway.

The Germans have reached Poniewiesch southeast of Shavil, the junction of the line running from Vilna to Libau. Their next move probably will be eastward against the Kovno-Dvinsk line at Dvinsk, in the capture of which town Petrograd would be isolated from direct communication with Poland. The fighting in the western war theater consists mainly of artillery engagements in which no material gains have been made by either side.

Fierce fighting continues to rage on the eastern sectors of the Austro-Italian front, especially on the Dobrodo plateau, where the Italians have secured only temporary local successes which the Austrians afterward counterbalanced by recapturing their original positions.

In the region of Krn the Italians are asserted to have suffered heavy losses from the Austrian artillery after having been repulsed in hand to hand fighting in which the Austrians rolled boulders down the mountainside on their foes. An Austrian aviator has dropped bombs on Verona.

Fresh successes for the British against the Turks along the Euphrates river and the capture of the town of Nasiriyeh are announced by London.

U. S. TO TAKE ACTION TOWARD SETTLING MEXICAN PROBLEM

President Wilson is Said to be Revolving Several Suggested Courses in His Mind.

Washington, July 26.—A definite step toward settling the Mexican problem will be taken by the United States government in the near future. Authoritative announcement to this effect was made today at the state department. President Wilson is understood to be revolving several suggested courses in his mind. Officials in close touch with the president think he has not finally determined what is to be done. His most probable course, it was reported tonight, would be to urge General Carranza for the last time to confer with other faction leaders in an effort to bring about peace. Should Carranza again refuse, this plan contemplates efforts to assemble other Mexican leaders who will represent a majority of the Mexican people.

Such a conference it has been suggested might be held in Northern Mexico or it might be held across the border in the United States. The conference would arrange for a constitutional convention which would plan an election and the establishment of a government which the United States would recognize and help to maintain. The Carranza agency here was advised that General Gonzalez was returning to Mexico City, the Villa "flying column" under Gen. Fierro having fled northward from Pachuca without a battle.

DELAY NOTE TO ALLIES.

Washington, July 26.—In announcing today the receipt from Great Britain of a reply to the American note of March 30th, which protested against the British order-in-council and French decree of similar contents, Secretary Lansing stated that the despatch of a new note to the allies on the subject, which has been under consideration for several weeks would now be delayed until the latest communication from London was thoroughly studied.

OIL WORKERS STRIKE.

San Antonio, Tex., July 26.—Mexican employees in the Tampico oil fields virtually have ceased operations owing to a strike, it was said in a dispatch from Tampico which arrived here tonight. Rioting has been frequent, with many persons injured, and according to the dispatch the managers of most of the wells decided to double the guards around their properties and suspend operations until the labor trouble is settled.

ARREST AMERICAN CHAUFFEUR.

El Paso, Texas, July 26.—Henry Salazar, an American chauffeur was arrested by Mexican authorities tonight as he was about to cross the bridge to the American side. His two passengers, Lieutenants Michael and Shallenbarger of the sixteenth United States infantry were compelled to obtain written permits from General Obnelas before continuing their journey.

SEND OUT ADDITIONAL APPEALS FOR RELIEF

MANY DESTITUTE IN SOUTHERN OHIO
COAL MINING DISTRICTS

Reports of National Guard Officers Describe Situation as Piteable—Most of the Men Are Out of Work Owing to Shutting Down of the Mines.

Columbus, O., July 26.—Reports received here today from national guard officers in charge of the distribution of food supplies among destitute families of the southern Ohio coal mining districts, prompted state officials to send out additional appeals for contributions in aid in the relief work.

The reports showed that a large number of the 10,000 families in the Hocking and Sunday creek valleys are dependent on outside aid for food. In describing conditions the word "pitiable" appeared frequently in the reports. There are no strikes in these districts but most of the miners are out of work owing to the shutting down of the mines. Telegrams appealing for supplies for the miners were sent by Governor Willis to the mayors of fifty cities in Ohio and preparations were made to despatch many carloads of provisions.

Captain J. A. Sampson of the Ohio National Guard who has charge of one of the relief stations, stated in his report that he had supplied 293 families and 1,400 individuals in and about Glouster with enough food to last until tomorrow night. At a mine near Glouster, he said there were 400 persons who could not be reached.

Lieut. J. S. Bailey reported that more than 800 persons received food from the relief car of which he had charge. Some who came for food were too weak to carry it away, he said. The United Mine Workers of Ohio and several other organizations are preparing to assist in the relief work.

At a meeting held in Glouster today more than 3,000 miners adopted resolutions against the freight rates charged by the railroads for hauling Ohio coal. Speakers declared that discrimination in rates in favor of coal operators of other states had forced Ohio coal men to close their mines.

DAN HAYES RUNS INTO SWITCH ENGINE; IS KILLED INSTANTLY

SPRINGFIELD, Ill., July 26.—Jogging along a dusty road muffled in a heavy sweater this afternoon, Dan "Bunk" Hayes, a light-weight prize fighter conditioning himself for a fight here next week, ran into an Illinois Central railroad switch engine. He was killed instantly. The engine had just "kicked" a string of freight cars along the tracks and was backing up, when Hayes, running along head down bumped into it. Hayes formerly lived in Gary, Ind.

Danny Hayes who is referred to above is well known to local followers of the ring. He came here several times and worked out with Al Baldwin when the latter was training for fights at the Moose club in Springfield. Hayes was a welter weight, fighting between 145 and 150 pounds. He was considered a willing mixer and when he went into the ring the crowd was always sure of seeing a fight. He was always one of Baldwin's seconds in his Springfield bouts.

BOMB WRECKS BED;

MAN AND SON HURT
Dallas, Texas, July 26.—A bomb placed under a bed in the home of W. T. Moore, foreman of Padgett Brothers Saddlery company here tonight completely wrecked the bedroom. Moore and his son Frank were seriously injured.

Padgett brothers have large contracts for saddles and harness for the French and English governments.

MAY RETURN TO WORK TODAY.

New York, July 26.—Developments in the strike situation at Bayonne, N. J., tonight indicated that probably half of the approximately 5,000 employees of the Standard Oil company of New Jersey would return to work tomorrow evening. It is estimated that 1,500 men signified their intention of returning to work and that probably half of the employees speak English or are American citizens.

FOOD SITUATION WORSE.

Douglas, Ariz., July 26.—Travelers from the eastern portion of Sonora, Mexico, reported today that the food situation in that section steadily is becoming worse. Farmers believing crops would bring them no benefit because of the probabilities of seizure, have abandoned their fields and are migrating into Cananea.

TERM NOTE UNSATISFACTORY.

Berlin, via London, July 26.—The comment of the principal provincial papers agrees with that of the Berlin press—that the American note is entirely unsatisfactory and leaves Germany no alternative except to continue her submarine warfare against hostile commerce, regardless of consequences, unless "Great Britain as a result of the forthcoming note from Washington, sees fit to change her illegal blockade policy."

POSTPONE EXECUTION OF BECKER UNTIL FRIDAY

ACTION IS TAKEN AT THE REQUEST
OF SUPREME JUSTICE FORD

Justice Desires More Time to Consider Application for a New Trial—May Not Finish Deliberations Before Tonight or Wednesday.

New York, July 26.—At the request of Supreme Justice Ford for more time to consider the application for a new trial made by Chas. Becker, under sentence of death for instigating the murder of Herman Rosenthal, the execution of the former police lieutenant tonight was postponed from Wednesday until Friday morning of this week.

Justice Hears Arguments.
Justice Ford today heard arguments for and against the application. Tonight the justice telephoned to the warden of the Sing Sing prison and requested that the execution be postponed.

Justice Ford announced today that he would decide the case as quickly as possible. Tonight it was stated that he might not finish his deliberations before Tuesday night or Wednesday.

Justice Ford then fixed tomorrow noon as the expiration of time for filing briefs, if any are to be filed.

Mr. Crocker, chief counsel for Becker, spoke for three hours in presenting the application. He reviewed the events prior to Rosenthal's murder; circumstances leading to the confessions of Jack Rose, Bridgie Webber and Harry Vallon and the circumstances of the two trials. On this foundation Mr. Crocker presented the alleged new evidence relating to the Sullivan conference and the affidavit made by Joseph Murphy, claiming to have overheard the informers conspire in the Tombs to "frame" Becker.

Becker Ready For Fate.

In conclusion Mr. Crocker said: "If Becker is now executed, he will be executed on a technicality. The footsteps of justice are enmeshed. Becker is ready for his fate. He has asked mercy of no one, but for the first time we have a man about to be executed who cannot submit his fate to the hands of an impartial chief executive. The governor of this state is the official who constructed the case against Becker. Save the state from the stain of taking life in a case where the preponderance of proof is contrary to the guilt of the man who is to be executed."

Assistant District Attorney Taylor who opposed Becker's appeal said the court could only grant Becker a new trial on the ground of newly discovered evidence and declared that none of the affidavits presented in Becker's application contained new evidence.

RUSSIA'S WINTER CEREAL CROPS PROMISE HEAVY INCREASES

WASHINGTON, July 26.—Russia's winter cereal crops promise heavy increases this year. Forecasts for 54 divisions of European Russia apparently all except Poland cabled today by the International Institute of Agriculture at Rome to the department of agriculture are: Wheat—163,000,000 bushels, an increase of 29.3 per cent over last year.

Rye—7,000,000, an increase of 28.1 per cent.

Barley—491,000,000 bushels, an increase of 30.9 per cent.

Oats—959,000,000 bushels, an increase of 32.7 per cent.

Corn—79,000,000 bushels, a decrease of 3.2 per cent.

URGES MILITARY EXPANSION.

Honolulu, July 26.—Immediate steps toward military expansion should be taken by the United States government. We should maintain the largest and best navy in the world and our army should be many times larger than it is," said Judge Elbert Henry Gary of the United Steel corporation in an address today before the Honolulu chamber of commerce.

END LONGSHOREMEN'S STRIKE.

New York, July 26.—The strike of 1,800 longshoremen employed by the Clyde Steamship company and the Mallory Steamship company which had been in progress since last Tuesday was ended today. The men were allowed concessions and were granted an increase of pay.

MEXICAN AIRPLANE FALLS.

Nogales, Ariz., July 26.—Piloted by James Dean, an American who, had William Glasen as an observer, a scouting airplane belonging to the Maycena garrison at Nogales, Sonora, fell 200 feet today. The machine was wrecked, but Dean and Glasen escaped with slight injuries.

WOLVES PREY ON STOCK.

Champaign, Ill., July 26.—A man by the name of J. S. Conard residing in Condit township this county, notified county clerk Fred Hess this afternoon that the wolves are taking the livestock of the township and are preying on the lambs, pigs and chickens.

VOTE TO GO ON STRIKE.

Pottsville, Pa., July 26.—Two hundred and sixty of the 400 employees of the Nitrate Products company voted tonight to go on strike for an increase in wages from 37 1-2 to 75 cents an hour.

LEELANAW'S CREW IS SENT TO DUNDEE

Submarine Commander
Gives American Steamer
Ample Warning

SURPRISES OFFICIALS

Sinking Seems To Show German Insisting On Own Interpretation of Treaty of 1828

ADDS AGGRAVATING INCIDENT

LONDON, July 26.—All the crew of the American steamer Leelanaw are expected to reach Dundee tomorrow when it will be possible to obtain a full account of the sinking of the vessel by a German submarine off the Orkney Islands Sunday night. The episode has created widespread discussion in England, coming as it did almost coincident with the delivery of the American note to Germany. Only meager accounts of the destruction of the Leelanaw have been received here but it is clear that the submarine gave the commander of the steamer ample warning, even permitting the crew to collect part of their effects before taking them aboard the underwater craft, which then, through the combined use of shell fire and bombs, sent the vessel to the bottom.

Insists On Own Interpretation.

Washington, July 26.—Destruction of the American ship Leelanaw by a German submarine drew sharply the attention of the officials of the United States government that Germany was insisting on her own interpretation of the Prussian-American treaty of 1828 in disregard of two American notes on the subject.

In three instances of American ships destroyed or damaged—the Gulflight, the Nebraska and the William P. Frye—German has agreed to pay damages and in the last case the Berlin government took the position that it had not violated the treaty of 1828, but had exercised a right given her by inference from the language of the pact.

Officials of the Washington government were surprised at destruction of the Leelanaw, but beyond adding an aggravating incident to the already strained relations between the two governments there was no indication that the case would lead to a new turn in the general situation.

May Create New Situation.

The fact that the crew of the vessel was saved caused a feeling of relief in official quarters, but there were many evidences of apprehension that if Germany continues to promise payment yet destroys more American ships, a new situation might be created.

The fact that the Leelanaw carried a cargo of flax, declared absolute contraband by Germany on April 18th, does not alter the view of the United States government that the contraband might have been removed and the vessel spared. Under the general rules of international law the destruction of a neutral vessel carrying contraband was not admitted until the famous Knight Commander case in the Russo-Japanese war. The declaration of London in 1909 embodied the principle as applicable in extreme cases but stipulated that passengers and crew must be transferred to a place of safety and the case itself later sent to a prize court for determination as to the legality of the act.

MAY CALL ANOTHER STRIKE.

Bridgeport, Conn., July 26.—Unless the labor situation at the Remington Arms and Ammunition company's plant is adjusted by Wednesday another strike will be called, according to a statement here tonight by J. J. Keppler, international vice-president of the machinists' union.

WEATHER FORECAST
AND TEMPERATURES.

WASHINGTON, July 26.—Illinois—Partly cloudy Tuesday and Wednesday with probably showers in north and central portions; not much change in temperature.

Temperatures.
The current, maximum and minimum temperatures recorded Monday were:

WINCHESTER

The boy counts to the number of
twenty left Monday for a hike to
the Illinois river, where they will
take boat, making the Ozark
mountains in Missouri their destination.
They will camp out for a week
or more.

Myron and Kate Ellis of White
Hall were Sunday visitors in Win-
chester. Miss Kate will remain for
a few days.

Miss Nell Ring has returned from
a visit in Morrisonville and Ray-
mond.

A lawn social will be held on the
lawn of the Catholic church Thurs-
day evening.

Elmo Coulins left Sunday for a
short visit in St. Louis.

George Metzger went to East St.
Louis Monday.

Rolla Kellen arrived Sunday for
a visit from Kansas City.

Attorney Strang of White Hall
was here on business Monday.

Mrs. Lennie Cheatham left Mon-
day for a visit with her daughter in
Chicago.

Mrs. Leonard Taylor has returned
to East St. Louis, after a visit with
her parents, Mr. and Mrs. George
Stuart.

We are selling one lot of \$1, \$1.50
and \$2 shirts this week for 50c at
TOMLINSON'S.

The Fatted Calf.

It is chigger time as many a per-
son who has been on a picnic or
crossed a grassy pasture can tell
you. Rub a little bacon grease on
your itching wounds and read the
following from the Oklahoma City
Times:

"The gentle chigger is upon us,
according to an interesting and il-
luminating treatise received by the
local Department of Agriculture.
True, the government bug experts
refer to this well-known little animal
as Trombidium, and casually
mention the fact that in this locality
only the Leptus Americanus and the
Leptus irritans need be feared, but
they can't fool the itching fishermen
and picnickers of Oklahoma City
with their innocent appearing im-
portant names. The blood-thirsty
chigger is in our midst, and the fat-
ted calf must suffer."

A Political Man of Mystery.

Col. Edward M. House of Texas
who recently returned from a trip
to Europe where he visited all of
the war stricken countries and had
interviews with the leaders is justly
termed the "Man of Mystery" in
American politics. He is so termed
because while he has been so placed
that he could easily have obtained
political preferment he is said to
want nothing from politicians and
will accept no position. In a nation
of office seekers it is difficult to un-
derstand a man like the colonel.
His sound perception and judgment
is followed by more than one polit-
ical leader. Colonel House was
born in Houston, Tex., July 26,
1858, and was educated at Cornell.
He has been active in the Demo-
cratic campaigns in Texas, and has
piloted to victory four governors.
He figured for the first time in na-
tional politics some four years ago,
when Governor Wilson was prepar-
ing his campaign for the presiden-
cy. He called upon Wilson and they
became fast friends, and the presi-
dent has often spoken of his re-
markable ability.

Live Stock Conditions Improve.

There is now no territory in Illi-
nois quarantined for foot-and-mouth
disease outside of Cook, Dupage,
Lee and Ogle counties. In Cook
county, the Union Stock Yards are
still an exposed area. In the other
counties, territory close to premises
which have recently been infected
now constitutes a restricted area,
and feeders and stockers can not be
shipped from these places into ter-
ritory where the disease has never
appeared. With the exception of
this restriction and the restrictions
upon the Union Stock Yards, the
foot-and-mouth disease in Illinois
appears to be a thing of the past.
While market conditions have thus
improved prices, except for fat cat-
tle, have not reached the hoped for
levels. The prediction of nine cent
hogs, for July, did not materialize
and farmers are not quite able to
understand why, with shipments not
above normal and corn 70 and 75
cents that prices are not higher.

PASSAVANT NOTES.

Frank Bulle of Lawrenceville, Ill.,
who has been ill with typhoid fever
has gone to St. Louis to visit Mr.
McKay. The young man was on a
train coming toward Jacksonville
when he was found to be ill by Mr.
McKay, a traveling salesman who
brought him to Passavant, where
provisions were made for his treat-
ment. The young man has been ill
for eight weeks. He is a son of
printer but both his parents are
dead. Mr. McKay will try and se-
cure a job for him with an Electrical
company of St. Louis.

Clarence Cunningham of Muray-
ville, who underwent an operation is
doing nicely.

Albert De Freitas who was oper-
ated on last week is convalescing.

T. W. Fox of Sinclair underwent
an operation at the hospital Mon-
day.

Earl Johnson, the 12 year old son
of Dr. A. M. Johnson of Concord
was able to leave the hospital Mon-
day. He fell out of a tree and frac-
tured a leg.

See our \$1.50 silk shirts at \$1.15
at TOMLINSON'S.

ATTENDED FUNERAL.

Mr. and Mrs. A. H. Atheron, Mrs.
Edith Shuff Richardson of the Point
and Miss Stella Shuff have return-
ed from Springfield where they at-
tended the funeral of Miss Edna
Harnett.

Mr. and Mrs. Joseph Lindsay and
daughter Miss Edith of the Literber-
ry neighborhood were in the city
Monday. They arrived at home Sat-
urday after a visit to the Panama-
Pacific exposition and at other places
of interest on the Pacific coast.

FUNERAL SERVICES HELD FOR LATE R. M. HOCKENHULL

Great Simplicity Marked Obsequies
Sunday Afternoon — Dr. Post
Spoke Personal Tribute at Con-
gregational Church.

The funeral services for the late
Robert M. Hockenull were held at the
residence, 1933 West State
street, Sunday afternoon at 4
o'clock. The services, in accordance
with the desire of the deceased, were
simple, yet withal impressive. He
who had sung at so many funerals
and had heard many eulogies given
for the dead, had no music, no ser-
mon and no obituary at the service
in his memory. The services were
conducted by Dr. Roswell O. Post of
the Congregational church, who had
for many years been an intimate
friend of the deceased.

In the beginning of the service
Dr. Post said: "We are gathered
here this afternoon to hear God
speak to us and to speak to Him.
Let us hear Him, as he spoke in
the words of David, of Moses, of
John and by the mouth of His own
son, Jesus."

Dr. Post then read from Psalms
23, Psalms 90, John 14 and Revela-
tions 21. At the conclusion of the
scripture reading Dr. Post opened
a little volume of Lyman Abbott's
"The Other Room" and read a
poem, "Christus Consolator," which
was peculiarly appropriate to the
occasion. The services closed with
prayer.

There were many beautiful flowers
sent by friends and Mr. Hockenull's
business associates. They were
cared for by Mrs. William Barr
Brown, Jr., Miss Anna Bronson,
Miss Florence Loar, Mrs. Alden
Brown and Miss Carrie Dunlap.

Burial was in Diamond Grove cem-
etery and the grave service was of
the same simplicity that marked the
services at the home. The bearers
were: E. W. Brown, M. F. Dunlap,
Andrew Russell, W. F. Widmayer,
W. G. Goebel, Joseph Kelly and Wil-
liam Barr Brown, Jr.

Tribute by Dr. Post.

At the Sunday morning service at
the Congregational church Dr. Post
paid a beautiful tribute to the life
and character of Mr. Hockenull. At
the close of the sermon Dr. Post
said:

"The death of Robert M. Hocken-
ull gives reminder, as we worship
here this morning, how large cause
we as a church have to hold him in
kindly memory.

"Our golden age lies in those
years when in superb generosity he
gave his glorious gift of song in the
service of our sanctuary. Indeed he
made the worship of our house mem-
orable in the work of those who
sing praises unto the Lord in the
earthly tabernacles of the Most
High.

"A new generation must needs fill
our place before the memory of that
matchless voice dies away from the
worship in the house of God. So we
desire to place this sincere memorial
upon our records in slight acknowl-
edgement of the services so freely
rendered us by Robert Hockenull,
who went home last Thursday night.

"As your pastor and his friend, it
is my fitting for me to voice a
little word of appreciation. For,
though not a member of our church,
for ten years he devoutly worshipped
here, called me his pastor and ren-
dered the every aid of the ideal par-
ishioner—loving and loyal.

"Two characteristics only of the
many cherished ones I wish to most
briefly note. His genius for friend-
ships and his passion for devotional
truth. The friendship he gave knew
no reserve, his mine was thine to
utter exhaustion, whether of goods
or time or affection—'Mine is thine'
—and whatever he offered was given
with that smile which made one
feel that he, in receiving, was really
conferring the favor.

"The dearest friend to me, the kindest
man,
The best conditioned and unwearied
spirit
In doing courtesies; and one in
whom
The ancient Roman honour most ap-
pears."

"He was indeed a rare, true
friend.

"Again, Mr. Hockenull was a
great lover of spiritual truth, know-
ing his Bible as only the few do,
and reading with great zest the best
works of those who interpret the
word of life. Jowett he knew and
Hugh Black and Lyman Abbott and
above all, Phillips Brooks. Brooks
was the one man who fed his soul
to full satisfaction. Brooks, who
more than any other American
showed the eternal riches of divine
revelation—God speaking in His
Word and in the human soul. He,
who so loved Brooks loved what
Brooks loved and bears upon his
soul the same hallmark of this
prince of spiritual truth.

"Friends, Robert Hockenull I
loved, and as silence is enforced
upon me at his grave, I have prayed
the privilege of paying before you
this most incomplete tribute to his
name—the name of the Christian
gentleman."

Resolutions Adopted.

The trustees of Illinois College de-
sire to give some expression to their
great sense of loss in the sudden
death of their valued colleague, Mr.
Robert M. Hockenull.

Mr. Hockenull's devotion to Illi-
nois college was consistently unself-
ish and untiring. Not only did he
bestow upon her liberally his labor
and thought, but his service was uni-
formly rendered with unfaltering
cheerfulness and characteristic mod-
esty. His efficiency in the responsi-
ble office of treasurer of the college,
his sober judgments in counsel, his
willing sacrifices in administrative
duties, his ready co-operation in
plans of progress, his deep interest
in faculty and student body, not only
endowed him to his fellow trustees,
but revealed his true and lasting
love for his alma mater.

It is with the most heartfelt ap-
preciation of the faithful service and
devoted character of our well be-

loved friend and colleague that we
make this expression of the esteem
and honor in which we held him. We
wish to extend to his family our sin-
cere and abiding sympathy in the
great grief and immeasurable loss
which has come to them through
his translation to his eternal home.
Howard D. French,
T. J. Pitner,
Harry M. Carps.
July 24, 1915. For the Trustees.

CITY AND COUNTY

Miss Marie Fearon has returned to
Chicago after a two weeks' vacation
spent at the home of her sister, Mrs.
Jerry Heary.

Miss Marian Fairbank has re-
turned to the city after an extended
stay at Old Mission, Mich.

William Young of New York City
is here on account of the illness of
his sister, Miss Gertrude Young,
who is a patient at Passavant hospi-
tal. Miss Young recently under-
went a very serious operation, but
is now improving steadily.

Dr. and Mrs. F. C. Noyes and son
have returned from a visit of a week
with relatives at Columbia, Mo.

Mrs. Harriet Gillett Cole and Miss
Alma Cole, who have recently re-
turned from a trip to Japan, are
guests at the State School for the
Deaf.

Mrs. Masters and Helen, Eloise
and Martha Strang of White Hall
came to the city Saturday in the auto
of Mr. Campbell and spent Sunday
at the home of Mrs. Masters' pa-
rents, Capt. and Mrs. J. E. Wright.

Elmer Whalen has returned from
a visit in Naples with relatives.
Mrs. John W. Clary, Miss Ellen
Groves and her brother, John W.
Groves, will leave this morning for
a sojourn on the Pacific coast. They
will visit both expositions and spend
some time at Los Angeles and the
various places of attraction in its
vicinity.

Daniel Moy with Mrs. A. J. Bacon
and Mr. and Mrs. Marlon Brokaw as
his guests went Sunday to Montez-
uma, Pike county in Mr. Moy's White
auto, where they spent the day at
the home of Mr. and Mrs. Virgil
Hoover. They reported good roads
and an enjoyable trip and were not
in the rain area.

Mr. and Mrs. Robert Smith and
daughter Miss Irene went to Deca-
tur Sunday in their Ford car with
their guest, W. F. Taylor of Mt. Ver-
non at the wheel. They spent the
day at the home of Mr. Smith's son
Roy in Decatur and made the trip
home in four hours, the distance
one way is 76 miles.

George Lukeman has received a
letter from Viggo Jensen in which
he tells of being at the scene of the
Eastland disaster. Mr. Jensen said
that the bodies of the dead were
placed in great piles when taken
from the boat. He also told of the
efforts that were made to resuscitate
those in whom there seemed to be
any life.

Miss Gertrude Atkins of East col-
lege avenue has returned from the
chauteauqua encampment at Quiver
Beach, north of Havana, where she
was a guest at the cottage of Mrs.
A. H. Pennewit of Easton. She re-
ports the chauteauqua a big success
as the sixty-five cottages and the
hotel were well filled and every-
one appeared to be enjoying the out-
ing.

Buy your peaches today.

INJURED IN ACCIDENTS.
Tony Roehler, aged 10 years, who
lives a half mile east of Franklin
had a leg badly lacerated Monday
as the result of a horse stopping on
him. The boy was riding his kick,
driving a son's cattle. The horse
stepped in a mud hole, throwing
the boy off and the animal trampled
the leg and foot in such a manner
that Dr. J. B. Perkins took several
stitches to close the wound.

Clarence Peterson.

Clarence Peterson, six years old
son of Mr. and Mrs. John Peterson
of Sandusky street had the misfor-
tune Saturday to fall from a fence,
where he was perched trying to se-
cure a plum. The member was set
and Sunday an X-ray picture was
taken of the injury at Passavant hospi-
tal.

Yes, TOMLINSON has started his
July sale and you can buy summer
goods at 20 to 50 per cent reduction.

HAS YOUNG WOLF.

Lawrence Dye, son of Richard Dye
has been given a young prairie wolf
which he has named Kazan. The
young fellow is fond of wild ani-
mals and will no doubt make the
three months' old pup a very at-
tractive creature.

Yes, TOMLINSON'S sale is on.
Come and get your bargains this
week. \$1 straw hats 50c; \$2 hats,
\$1.00.

WESTMINSTER SOCIAL.

The July birthday social of West-
minster Presbyterian church will be
held this afternoon at 3 o'clock at
the home of Mrs. J. H. Russell, 238
Caldwell street. The hostesses will
be Mrs. Self, Mrs. P. G. Stein, Miss
Ann McCormick and Miss Estelle
Gilbert.

ADMINISTRATOR'S NOTICE.

Estate of William Barr Brown, de-
ceased. The undersigned, having
been appointed administratrix of the
estate of William Barr Brown, late
of the county of Morgan and state
of Illinois, hereby gives notice that
she will appear before the county
court of Morgan county, at the court
house in Jacksonville, at the Octo-
ber term on the first Monday in Oc-
tober next, at which time all per-
sons having claims against said es-
tate are notified and requested to at-
tend for the purpose of having the
same adjusted.

All persons indebted to said es-
tate are requested to make imme-
diate payment to the undersigned.
Dated this 24th day of July, A. D.
1915.
Frances E. Brown,
Administratrix.

WERE FINE VIEWS.

The illustrated lecture on "Solomon's Temple and Jerusalem" given by Dr. David Heagle of Chicago at the First Baptist church Sunday night was one of the most interesting lectures given in the city for some time. Dr. Heagle has made a life study of this particular part of Biblical history and his views were among the finest ever seen here. Dr. Heagle has given the lecture over two thousand times. At the close of the service, "The Holy City" was sung by B. F. Lane, the song being illustrated with stereopticon views.

FLY BOUNCER.

\$1 per gallon at Hall Bros., S. Main street. Sprayer free with each gal., for ten days only.

WITH THE SICK.

Donald Butler of the Railway & Light Co. office force, is recovering satisfactorily from an attack of typhoid fever. He expects within a few days to return to his home from Our Savior's hospital where he has been for some seven weeks.

James B. Swift, 352 West Wolf street, who underwent an operation Monday forenoon at Our Savior's hospital, is in a favorable condition. Drs. Norris and Bowe were the attending surgeons.

Miss Elizabeth Delaney of Phelps and Osborne, who has been very ill, is convalescing.

Paul Goveia of Lynnville underwent an operation for appendicitis at Passavant hospital.

Charles P. Gillett, superintendent of the State School for the Deaf, is ill with lumbago. The attack has caused the postponement of an automobile trip to Wisconsin for which he was preparing.

SOCIAL EVENTS

Celebrates His 88th Birthday.

J. A. Henderson, of Litterberry, better known as "Uncle Jack" Henderson, celebrated his 88th birthday Sunday, at the home of his son, S. J. Henderson, west of Litterberry. His birthday came on Saturday but the men were so busy in the fields on that day, the event took place the following day. Mr. Henderson was the son of David Henderson, one of the pioneer residents of Morgan county, the son being born near Arcadia. Excepting for three years spent in Iowa, he has always made that community his home. The day was happily spent in every way and at the noon hour a fine dinner was served. Mr. Henderson was remembered by a number of gifts and not only were best wishes bestowed upon him, but also upon his faithful wife.

There are five children in the family. C. P. Henderson, Mrs. J. G. Myers, Mrs. I. H. Maul, P. J. Henderson, all of Litterberry, and Mrs. R. J. Gidgell of Fairfield, Iowa. All the children and their families were present, excepting Mrs. Gidgell, who could not come on account of illness. Others present included Mr. and Mrs. William Potefish, Mrs. Barbara Horton of San Antonio, and Mrs. Harry Hutches and daughter Bernida of Chicago. Mr. Henderson also has two brothers living, M. M. Henderson of Litterberry and J. C. Henderson of Arcadia.

Miss Thornton Hostess For Monmouth Guests.
Miss Doris Thornton entertained at dinner Sunday evening at her home on South Fayette street, in honor of Miss Lillian La Vine and Miss Marguerite Wilcox of Monmouth, guests of Misses Ethel and Bertha Lucas. Miss La Vine left Monday for her home. Miss Wilcox will remain in the city throughout the ensuing week. At the dinner

there were present Misses Irene Hadden, Mayne Williams, Leta Groves, Lillian Groves, Lillian Clearwater, Ethel and Bertha Lucas, with the guests of honor, Misses La Vine and Wilcox.

Miss Catherine Cain

Is Giving House Party.

Miss Catherine Cain is giving a house party at her home south of the city in honor of her guest, Miss Margaret Rogerson of Alton, Ill. Those attending are: Misses Catherine, Louise and Josephine Gebert, Sarah Martin, Loretta Piepenbrink, Margaret Rogerson and Catherine Cain.

FUNERALS

Wilbert.

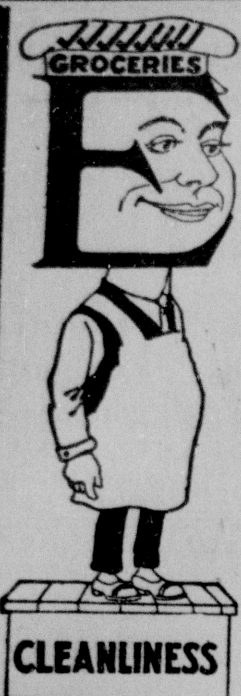

The funeral of Michael Wilbert was held from the family residence, 818 South Clay avenue, Monday afternoon at 2:30 o'clock. Services were in charge of the Rev. J. G. Kuppler, pastor of the German Lutheran church. Mr. Kuppler gave an eloquent discourse. He dwelt upon the upright life of the deceased and spoke words of comfort to the family. The funeral was largely attended by friends of Mr. Wilbert.

Music was furnished by a quartette composed of Mr. and Mrs. Robert Stice, Edward Weigand and Miss Cornelia Weigand with Miss Brune as accompanist.

There was a large number of floral offerings and these were in charge of Miss Dora Conlee and Miss Bessie Hadden.

Interment was in Diamond Grove cemetery. The bearers were: Len G. Magill, Frank Byrns, William Muehlhausen, Frank Pechloffel, Henry Hemple and John Wright.

CORNERSTONE LAID AT CONCORD

BEGINNINGS OF NEW METHODIST CHURCH OF THAT PLACE

Exercises Were Impressive in Character, Conducted by the Pastor, Rev. W. P. Bowman—Want the Church Completed by October First.

Impressive exercises marked the laying of the cornerstone of the new Methodist Episcopal church at Concord, which took place Sunday afternoon at 3 o'clock, the services being in charge of the pastor, Rev. W. P. Bowman. Rev. F. A. McCarty, district superintendent, who was to have made the principal address could not be present on account of the heavy rain in the vicinity of Lynnville, where the superintendent filled a morning engagement. The congregation was much disappointed over the absence of Dr. McCarty. The hymns appropriate to the occasion were well rendered by the choir and constituted an important part of the afternoon's program.

The opening prayer was by the Rev. C. N. Cain, pastor of the Methodist Protestant church and he read the lesson from the new testament scripture. The 132nd Psalm was read responsively by the pastor and choir.

Rev. Mr. Bowman speaks. Rev. W. P. Bowman took the place of Dr. F. A. McCarty, and spoke briefly of what a new church meant to the good people of not only the Methodist faith but all the residents of that community. He said the church would stand as a living testimony of the supreme faith of the people in their God. Glorious as had been the history of the old church which had just been torn down, he hoped that the new edifice would long redound to the honor and glory of God and be a power for good in the community.

Articles in Copperbox. After the address, the pastor read the list of the contents of the copper box, which were placed in the cornerstone, as follows: The Holy Bible; Methodist Episcopal Hymnal; Discipline of the M. E. church; copy of the minutes of the Illinois Annual Conference, 1914; Year Book; History of the local church; Roll of the Membership; Official Board; Building committee; Officers and Membership roll of the Ladies' Aid society; Woman's Foreign Missionary society; Officers and Teachers of the Sunday school; Copy of Friday's Jacksonville Daily Journal and Jacksonville Daily Courier, or Knoxville Independent, also a list of the first board of trustees of the church.

Mr. William H. Burrell, foreman of the brick work, laid the cornerstone and the ritual was read and the contents placed in the box by Rev. Mr. Bowman.

Despite the threatening weather there was a good attendance and after the benediction by Rev. Mr. Cain, the congregation remained for some time, looking at the basement of the new building.

Church Basement Examined. As has previously been mentioned the estimate cost of the new structure will be \$12,000 and will be built on the site of the present structure, facing the south. Toronto brick will be used, trimmed in white Indiana limestone. The building is 58 feet by 56 feet, the architect being J. B. Martin of Liverpool, Ohio. The basement will be concrete and a kitchen will be placed there and will contain a banquet room and reception room. The church will be lighted by electricity and the storage apparatus will be placed in one of the apartments. It is planned to have everything in the basement fireproof. The auditorium will be very commodious, the Sunday school departments and reception room being so placed that all can be opened into the main auditorium. A place is being left for the building of a pipe organ but it is not probable that it will be put in at once. There will also be a place for a bell and there is a movement on foot among the congregation to get funds for a splendid bell.

Church Dedication. No program as yet has been arranged for the dedication exercises but it is hoped to have the church finished by the last of September and that Bishop Quayle will be able to give the Dedication address. The foreman, William H. Burrell, intends to put on sufficient men so that the building will move right along from now on, and the interest manifested yesterday, despite the inclement weather, augurs well for the spirit and progressiveness, not only of the pastor but the members of that denomination.

PREACHED AT

OLD PROVIDENCE. Rev. W. W. Theobald, pastor of Brooklyn M. E. church, attended the Home Coming and basket dinner of the M. E. church of Old Providence, near Wagoner, Ill., Sunday. This was Mr. Theobald's first charge 23 years ago. He was heard in an interesting address and others who spoke were Rev. Preston Wood, district superintendent from Springfield, and Rev. Royal Ennis of Hillsboro. The meeting was held in a grove and the attendance was unusually large, the day being ideal.

TO HOLD PICNIC. The Sunday school of this Woodson Presbyterian church will hold a picnic at Nichols Park Friday.

COMPLETE PLANS FOR PROBE TO PROBE BLAME FOR EASTLAND

(Continued from page one.)

Federal inspectors who had been corrupted by steamboat operators to violate the law; also that a federal judge had called a special grand jury and had stated that if the United States attorney declined to participate in the investigation he would name a special attorney.

Orders Attorney to Give Aid. "In reply the attorney general wired that on his return to Washington this morning he found information to the effect that a grand jury had been ordered for Thursday next to investigate the Eastland disaster; that he immediately wired the United States attorney and the party in charge of the department's bureau of investigation at Chicago to give all possible assistance in developing the facts relating to the sinking of the steamer and going to show violation of federal criminal statutes; that any statements that the department of justice had refused to countenance any federal investigation of the disaster were wholly without foundation and that any such statements as those referred to in the wire to the attorney general were false and nay such threats foolish."

Acting Secretary Sweet telegraphed a similar reply. "The department of commerce," he said, "is doing and will do everything in its power to determine the causes of this deplorable disaster. If minor officials of this department are in anyway to blame, the department proposes to find out and to take appropriate action."

Want Light on Matter. Syracuse, N. Y., July 26.—"We want light thrown on this matter, but it would be better to have it light and not heat," said Secretary William C. Redfield of the department of commerce tonight before leaving for Chicago to assume personal charge of the department's investigation of the Eastland disaster.

"The people will, I think," said Redfield, "await the result of the careful inquiry which must follow and will not be disposed to accept the judgments—some of them interested, which seem to be pronounced in advance of the taking of testimony."

"The department of commerce will welcome the fullest light from any point of view. Certainly I shall not assume in advance of the receipt of testimony that any particular person has done wrong or committed an error. With equal certainty the department will not tolerate neglect or incompetency."

"One's natural sorrow at the sad loss of life and one's deep regret for the pain that has been caused to many of the living should both be too real to permit their rushing in to hasty and ill-considered attacks upon anybody."

BAPTISMAL SERVICE AT LYNNVILLE CHURCH

Methodist congregation enjoys All Day Meeting Sunday with Address by Dr. McCarty.

The rite of baptism was administered to eight children and three adults and three new members were added by letter Sunday at the special all day service of the Lynnville M. E. church. Dr. F. A. McCarty spoke in the morning and the Rev. E. H. Bracewell pastor of the church had charge of the afternoon baptismal service.

Mrs. James Herring, and Mr. and Mrs. James Hart united with the church by letter. Those baptized were Charles Rexall Scholfield, son of Mr. and Mrs. Charles Scholfield; James, Jr., son of Mr. and Mrs. James Hart; Oran Walter. Hattie May and Frederick Leonard Fearnough, children of Mr. and Mrs. Walter Fearnough and Frederic Reat, Philip Lynden and Letitia Lorraine Scholfield, children of Mr. and Mrs. Fred J. Scholfield; Miss Molly Hart, Miss Helen Hart, and Mrs. William Rawlings.

At the business meeting trustees were selected as follows: F. J. Scholfield, Walter Fearnough, F. W. Scholfield, William Fearnough, William Rawlings, Mrs. Nettie Sheppard, Edgar Gibbs, Prince Coates and William Frost. The stewards selected were Mrs. Edgar Gibbs, Mrs. William Frost, Edward Ranson, William Rawlings, F. J. Scholfield and Frank Masters.

SINK NORWEGIAN STEAMER.

Halifax, N. S., July 26.—The Nova Scotia Steel & Coal company was notified by cable tonight of the sinking of the Norwegian Steamer Fimreite under charter to the company, by a German submarine off the coast of Scotland today. The steamer was bound from Wabana, N. F., for Immingham near Grimsby, England, with six thousand tons of iron ore.

EASY WAY TO MAKE

HAIR ATTRACTIVE.

Ladies who find trouble in properly or attractively arranging and dressing their hair should try using a little Parisian Sage twice daily for a while and note the remarkable improvement. Parisian Sage, which can be obtained from Coover & Shreve or any drug counter, makes the hair soft, lustrous, fluffy and wavy, takes out the dull, lifeless appearance, dissolves the dandruff and stimulates the hair roots into healthy, normal action. Instead of merely sprinkling the hair, it should be rubbed right into the scalp with the finger tips. Parisian Sage is a delightful treatment for both hair and scalp, cannot possibly injure the hair and is very inexpensive—Advertisement.

MISS NELLE SMITH WEDS DOCTOR ROBERT HARRIS

Former Student of Woman's College Weds Physician of Anderson, South Carolina.

A very pretty home wedding took place Saturday in Beardstown at the home of Mr. and Mrs. W. G. Smith, when their daughter, Miss Nelle, became the bride of Dr. Herbert Harris of Anderson, South Carolina.

Miss Smith has always made Beardstown her home. She was graduated from the Illinois Woman's College in music in 1909. Dr. Harris attended the medical school in Richmond, Va., and also at Philadelphia, Pa.

The wedding ceremony was performed by Rev. Mr. Williams, pastor of the Congregational church of Beardstown, and was witnessed by only intimate friends and relatives of the young couple. They left Saturday noon for Anderson, S. C., where they will make their home.

Those who attended the wedding from away were a brother of the groom, Dr. Robert W. Smith of St. Louis, Misses Abbie and Nellie Schnell of Litchfield, and Miss Mabel Mathews of Jacksonville.

MATRIMONIAL

Bishop-Marden.

John Bishop of this city and Miss Margaret Marden of Winchester were married Sunday evening at 6:30 o'clock at the home of Mr. and Mrs. Thomas Drake of Winchester, the Reverend H. D. Toomey performing the ceremony. Later in the evening Mr. and Mrs. Bishop left for Pittsfield to make their home.

The bride is a young woman of many accomplishments who receives the best wishes of many friends. She was born and reared in Winchester and received her education in the public schools. The groom is the son of Mr. and Mrs. William M. Bishop, 702 North Main street and was reared and educated in this city. He attended Brown's Business college and is now employed in Pittsfield, holding the position of head fountain man at the City cafe. Miss Ethel Bishop, sister of the groom was in Winchester to attend the wedding.

WILL CONTEST SUIT.

Mrs. Percy Peters of Chicago was in Jacksonville Monday in search of certain evidence to be used in a cross bill for divorce. It seems that Mr. Peters has figured in various matrimonial affairs and the wife he is now suing for divorce alleges that she is the woman telegraph dispatches in January 1908 stated had met a violent death in Colorado.

HEALTH IS BETTER.

Mr. and Mrs. Charles Price have just returned from French Lick and West Baden Springs, Indiana. Mr. Price feels much improved in health, being relieved from his pleurisy trouble.

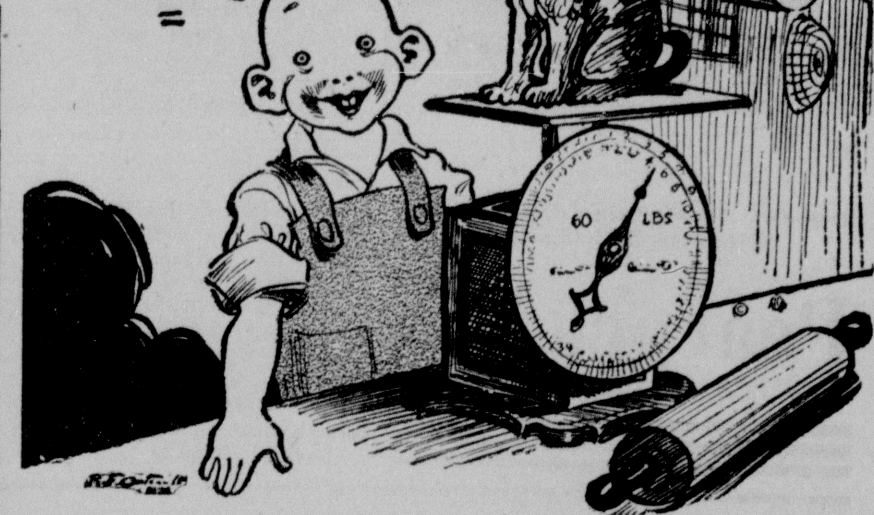

BISHOP OSBORNE HERE.

Right Rev. E. W. Osborne, Bishop of Springfield, will be the guest of Rev. and Mrs. J. F. Langston, 1338 Mound avenue. They will be at home Wednesday afternoon and evening to all members of Trinity parish and others who desire to meet the bishop.

ELEVATORS ARRIVE.

Joseph DeGoveia Monday received two elevators from the Hollister-Whitney elevator company of Quincy. One is for the Illinois hotel, while the other is for the automobile garage of Howard Zahn on East Morgan street.

ARLINGTON MERCHANT FEELS BETTER

Friedrich Redeker, a business man of Arlington, Ill., was a victim of stomach and digestive troubles. He went to a hospital for an operation for another trouble. When he recovered from the operation he found his stomach trouble worse and his heart affected.

He took Mayr's Wonderful Remedy. He got his appetite back and gained in strength right away. He wrote:

"I owe you some words of congratulation for your stomach remedy. I could not eat anything but soft food and the bloating from gas got so bad that at one time I had a fainting spell for three hours. I went to one of your Chicago drug stores and got your remedy. I took the remedy and the next morning was relieved. I am getting stronger and can eat anything that comes along."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

We teach watches to tell the truth

ACONITE WINS FEATURE IN STRAIGHT HEATS

COX DRIVES HIS HORSE TO AN
EASY VICTORY.

Margot Hal, The Climax and Fred Russell Stage One of the Prettiest Races Seen in Detroit in Years in the 2:08 Pace.

Detroit, Mich., July 26.—After the first three races on today's Grand Circuit program had been disposed of in straight heats three horses in the final number staged one of the prettiest races seen here in several years. It was the opening day of the Blue Ribbon meet at the state fair grounds. The track was heavy at the start, as a result of recent heavy rains but dried out later in the day. Only three horses went to the post for the 2:08 pace. Margot Hal acted badly in the first two heats which The Climax won in hard drives. In the third heat, McDonald kept his mare on her feet taking the lead at the half mile and holding it to the wire. Fred Russell led all the way and in the fourth, Margot Hal breaking just as she came alongside nearing the finish. The Climax led to the half in the final mile but tired badly and Margot Hal went to the front and showed the way to the wire. The Climax took a hard flogging to finish in front of Fred Russell, who had broken badly but was coming fast.

Hazel Laing won the 2:08 trot about as she pleased and Al Mack never was in danger of losing the 2:19 trot. Major Ong tried bravely to head Aconite in the 2:10 pace but Cox drove his horse to an easy victory in each heat.

The horses today were placed according to the "point system" so that Duchess, in the 2:08 trot, although finishing second in one heat was outside the money while Dago with two thirds was given third prize.

Efficient Housekeeping

BY HENRIETTA D. GRAUEL.

A MID-SUMMER TID-BIT—GUINEA FOWL.

The man of the house wants to know why guinea fowl is not served oftener; it is such a delicious dish.

There are many reasons; the birds are small and retail from 70 cents to \$1.25 each so perhaps that is the principal one. Another is that the little guineas are exceedingly tender; they must have especial care until two weeks old. The mother bird invariably steals her nest and if she escapes skunks, weasels, prowling minks and slinky cats long enough to hatch the feathered mites they become wet in the dew of early mornings and die.

All this discourages farm women from trying to supply the market with guineas. The few that are sold are often tough from advanced age, for once grown this fowl will live fifteen or twenty years. They become great pets and are as useful as a watch dog on a farm. They sound their shrill alarm when a stranger approaches and bravely fight furred night prowlers like rats and weasels.

The flesh of guineas is dark colored, but very sweet tasting and full of flavor when richly prepared. Pluck, singe, draw and cut the bird as with chicken. It is most always dry pickled as this, I think, keeps the meat well flavored.

To fricassee, first render the fat from a quarter of a pound of fine bacon. Now fry the fowl; it should cook very brown and be well seasoned. To attain the brown crust, so well liked, some cooks dredge each piece of meat lightly with

flour, seasoned with salt and pepper. Put the guinea in a deep tureen as soon as it is cooked tender and make a rich gravy of the fat and juices in the frying pan. Pour this over the tureen of meat.

With this serve croquettes of potato, buttered green peas and hot biscuit.

Panned broiled guinea is truly a luxury for it can only be made with very tender young birds. Split a brace of guineas down the back and remove what our Dinah calls "the innards." Do not wash but wipe very dry with a soft cloth. Mix salt, pepper and paprika together in a shaker and dredge the birds inside and out with the mixture. Now heat them with the side of a cleaver so they will lie flat and cook evenly in the pan. Brush them well with melted butter and when the frying pan is very hot lay them in. There will be some smoke at first but this will go in a moment and you can turn them, and cook the other side.

They should be turned every five minutes and after they are well started to cook the heat must be reduced. In fact the process of pan-broiling guinea is exactly like pan-broiling steak.

When done dish them and add minced parsley, a little butter and half as much boiling water as you have fat in the pan and pour all this over the birds. If you like currant, jelly on meat you may put two table-spoons of it with this liquor, but usually the home cooks serve it separately.

Tomorrow—July Vegetables.

COUNCIL PASSED SOUTH MAIN PAVING ORDINANCE MONDAY

First Reading Given at the Regular Weekly Session—Railroad Crossing for Mathers Street—Portion of Benches in Central Park to be Reserved for Women and Children.

The regular Monday morning session of the city council adjourned until 2:30 in the afternoon on account of the absence of Mayor Rodgers. At the afternoon session the ordinance providing for the paving of South Main street from Morton avenue to Michigan avenue was read and laid over under the rules for a week. This was the most important matter on which action was taken.

Early in the session Mayor Rodgers mentioned the conference recently held by city officials, former city officials and A. D. Stevens of Springfield, who has represented the petitioners in the Jacksonville rate case.

Mayor Rodgers said it had not been fully settled yet as to just who hired Mr. Stevens but that there was no question but what he had rendered service and was entitled to pay either by the city or by a private subscription. In view of the conditions and the fact that the case is not yet completed, the mayor suggested that it would be just as well to wait until the case is completed and the full amount of Mr. Stevens' fee is known. At that time a decision will be reached as to whether part of the sum is to be paid out of the city treasury or all of it be paid by private subscription. The mayor thought this would be satisfactory, especially from the fact that even if a portion of the bill were allowed now there is no money available for payment.

Mayor Rodgers also brought up the matter of the opening of Mathers street west across the C. & A. tracks and mentioned that an ordinance providing for the same had been passed by the former council. The mayor said that according to the information he received it would cost \$2500 and he did not believe that the need existed for such an expenditure. He recommended that the railroad be asked to construct a crossing for pedestrians which would give them straight access from Mathers street to Illinois avenue. He said that this could be done and would be a great convenience to a number of residents in that locality. It was ordered that the city attorney take this matter up with the Alton road.

Mr. Widmayer reported that there were no funds available for the payment of any bills. Mr. Martin mentioned a change in the chemical apparatus. In the past after exhausting a supply of forty gallons of the chemical mixture it has been necessary to use a heavy stream of water on fires and this has sometimes not been necessary and resulted in considerable damage. By the change it is possible after using all the chemical solution to run a stream of water through an inch and a quarter pipe. Mr. Cox reported grading work done on a number of streets and also reported some work in progress on sewers. Mr. Vasconcellos mentioned several things in his department, among them the removal of certain poles around the square and adjacent streets made possible by the installation of the boulevard lighting system.

Mr. Martin suggested that a portion of Central park be set aside for the use of women and children. His idea was that very frequently women and children would use the park benches while waiting for street cars if they had this opportunity. Under present conditions practically all of the benches are occupied by men some of whom spend the greater part of their time there. The commissioner thought this would be an action for the park board to undertake, but when it was called to his attention that the police department had full authority he stated that he would make an order setting aside a portion of the park in accordance with his ideas. The ordinance providing for the pavement of South Main street from Morton to Michigan avenue was then given a reading and the council adjourned.

A CASE OF HIGHWAY ROBBERY.
Henry Cruse, a cigar maker, was held up near the plant of the Illinois Bridge Co. Saturday evening. Mr. Cruse had been up town and was returning when he was stopped by two colored men. He was relieved of \$3 in cash. He went to the grocery store of Frank Ferreira on East Lafayette avenue and notified the police. McKinley Harrison, a young colored man, was arrested on suspicion, but was released, as Mr. Cruse said he was not one of the robbers.

EXECUTOR'S NOTICE.

Estate of William R. Routt, Deceased.
The undersigned having been appointed Executor of the last Will and Testament of William R. Routt, late of the County of Morgan and State of Illinois, deceased, hereby gives notice that he will appear before the County Court of Morgan County, at the Court House in Jacksonville, at the September Term, on the first Monday in September next, at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted.

All parties indebted to said estate are requested to make immediate payment to the undersigned.

Dated this 19th day of July, A. D. 1915.

Frank Elliott, Executor.

CLEARING HOUSE PAYS TRIBUTE TO MR. HOCKENHULL

July 26, 1915.

At a meeting of the Jacksonville Clearing House Association held on this date the following resolutions were adopted:

The banking and business interests of Jacksonville have met with a severe loss in the untimely and sudden death of Robert M. Hocken-hull, Vice President of the Avera National Bank, and your Committee feels that if possible a fitting tribute should be paid to his memory.

His was a life faithful in all things, a life distinctly helpful to the entire community. Mr. Hocken-hull stood unwaveringly for the best things and although a busy man he has ever been ready to listen to the calls of others and gave unceasingly of his time and talent as a musician. We know of no man who has made more endearing ties to the families of all classes of people, and Jacksonville and Morgan County has sustained an irreparable loss. May his life stand as a bright and shining light to the young men of our community.

Resolved, that we tender his bereaved widow the sympathy of this Association and that the Secretary be directed to spread these resolutions upon the records, that a copy of them be sent to the widow, and the city press for publication.

E. E. Crabtree,
Frank Elliott,
Frank J. Hehl,
Committee.

LIGHTNING STRIKES TREE.

About one o'clock Sunday afternoon during the rain there was a terrible flash of lightning followed

by a crash of thunder. Residents of all parts of the city on Monday in speaking of it said it seemed as though it had struck their respective houses. The bolt struck a long way from most of them as it hit a cotton wood tree on the premises of Charles R. Hopkins of North Fayette street.

EASY WAY TO HAKE

HAIR ATTRACTIVE.

Ladies who find trouble in properly or attractively arranging and dressing their hair should try using a little Parisian Sage twice daily for a while and note the remarkable improvement. Parisian Sage, which can be obtained from Coover & Shreve or any drug counter, makes the hair soft, lustrous, fluffy and wavy, takes out the dull, lifeless appearance, dissolves the dandruff and stimulates the hair roots into healthy normal action. Instead of merely sprinkling the hair, it should be rubbed right into the scalp with the finger tips. Parisian Sage is a delightful treatment for both hair and scalp, cannot possibly injure the hair and is very inexpensive.—Adv.

THE PRICE SHE SAYS.

There is hardly an American woman nowadays who can keep pace with the demands made upon her time and energy without paying the penalty of ill-health. It may be that dreadful backache, dragging pains, headaches, nervousness or the tortures of a displacement. It is the price she pays. To women in this condition Lydia E. Pinkham's Vegetable Compound comes as a boon and a blessing. A simple remedy made from roots and herbs which brings glorious health to suffering women.—Advertisement.

AMERICAN COLLEGES—DARTMOUTH.

Dartmouth College was founded in 1769 by Eleazar Wheelock as a charity school for Indians, and endowed with a barrel of rum. The Indians are still there, but the rum has disappeared and so has the charity, especially in the football season.

Dartmouth is located in the wooded hills of New Hampshire, safely isolated from the defenseless inhabitants. It has 1,400 students most of whom have had ancestors at the college. These students live in dormitories which are frequently renewed and live by devouring luckless athletic teams from other schools. Dartmouth is not co-educational, but there is a rule against shooting women found on the campus.

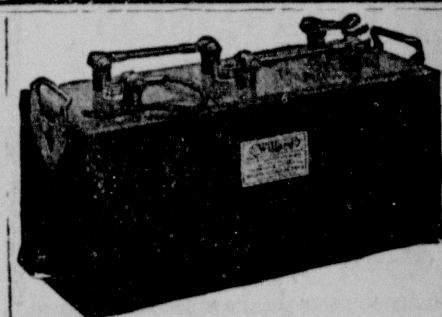

Dartmouth was a small school for almost 140 years and then startled itself by becoming big. It has an endowment of almost \$5,000,000 and owns many miles of forests on the Canadian line. The State of New Hampshire contributes to its support and so do fond fathers in every state in the Union and many foreign countries. One of the small and exclusive organizations among the students is the New Hampshire club.

The students of Dartmouth live simple lives untroubled by society and

amuse themselves with athletics. It is the most athletic school in the country. Its track teams have won intercollegiate championships since the days of Stephen Chase and its football team has achieved the distinction of being dropped from the Harvard schedule under the safety first rule. In the winter the students indulge liberally in skiing, snow-shoeing and tobogganing and in the summer they occupy camps in the wilds of northern New Hampshire where the scenery is durable and not easily displaced.

Dartmouth also has a course of study. The students are required to recite three times a day the fact that Daniel Webster and Rufus Choate were both students at the institution.

Dartmouth has the most perfect colonial chapel in New England, and when its old hall burned it reproduced it three sizes larger to the admiration of all architects. It has contributed many useful men to America, but it also contributed the famous Dartmouth Case by which Daniel Webster helped establish the foundations of justice in America. That was over accused of being a trust and this case was the first trust-busting failure.

BRAVES TAKE FOURTH STRAIGHT FROM CUBS

ADAMS LOSES DESPITE HIS BRILLIANT TWIRLING.

Boston Scores Only Run of Game in Fourth Inning — Philadelphia Downs Cincinnati.

Boston, July 26.—The Boston Nationals ended their home series today by winning the fourth straight game from Chicago. It was a pitching duel in which Adams of Chicago lost, notwithstanding brilliant twirling.

"MORNING GLANCES" (By Gosh)

The Braves beat the Cubs at Boston yesterday by a score of 1 to 0. Adams twirled brilliant ball for the Cubs allowing the Braves but two hits in seven innings. He was taken out in the eighth to allow Schulte to bat for him. Humphries finished the game and allowed one hit in the inning he worked. The Braves pushed the only run of the game over in the fourth inning. It was a hard luck game to lose as the Cubs made eight singles off of Ragan and Hughes. Each team made one error. It made the fourth straight win for the Braves from the Cubs.

Philadelphia defeated Cincinnati yesterday by a score of 6 to 2. The game was close up to the fifth inning, it looking like a Red victory. However, Bancroft made a home run with two men on bases and after that it was easy. Demaree was hit for thirteen safeties by the Reds but he was tight in the pinches and kept runs away from the plate.

New York and Pittsburgh split even on a double header Monday, the Pirates taking the first game and the Giants the second. Tesreau shut out Pittsburgh in the second game.

Brooklyn kept up her winning streak Monday by taking another game from the Cardinals by a score of 13 to 8. It made Brooklyn's twenty-second win out of the last twenty-eight games played. The Dodgers are in second place and if they keep up their form will soon be close on the heels of the Phillies.

The game between the Eagles and Astoria was not played Sunday, the visitors failing to arrive and not sending any word. While it rained hard about 1 o'clock it did not hurt the diamond any and there no doubt would have been a large crowd out. It is not known whether the Astoria team started and got marooned by the rain or whether they just did not care to come.

In the Federal league St. Louis

Target Tips and Hunting Helps by Alfred P. Lane

Send questions to Mr. Lane care of this paper.

J. M. P., Tallula, Ill.

Are automatic pistols and hammerless rifles perfectly safe when loaded and cocked? In the diagram of a Savage automatic pistol I think that gun is perfectly safe, but others look to me as if they might not be. It looks as though the hammer notch might some time slip due to rust and wear or a hard jolt. In other words, the safeties merely block the trigger. This information may not bother others, but I am looking for safety first. The Savage Co. claim they have a locked mechanism in their pistol which makes it shoot as hard and accurately as a single shot. Is this so, and if so, how much difference is there between the Savage and Colt .32 Automatic.

Ans. The Savage pistol is safe, as are other well made automatic pistols. The point you mention, i. e., an accident due to rust or sudden jar is not possible unless the gun were absolutely rusted to pieces inside. In other words, about ready to fall apart anyway. The velocity given by the various automatic pistols handling the .32 automatic pistol cartridge and the .380 automatic pistol cartridge are the same for the various makes, as there is no automatic pistol made which is really a locked breech, to handle this size cartridge. Of the automatic pistols made in this country, there are but two models which are locked breech and the other is the .45 Colt Government model. The Luger pistol, made abroad is a locked breech pistol as are the Browning models which were made by the Fabrique Nationale, before the war started.

"Jack Rabbit", Bluffs.

1. Which repeating shotgun do you consider the best, the Remington or Marlin Model 28?

Ans. This is a question for you to decide. Ask some of your friends.

2. Will a 30 inch barrel shoot as far and hold together as well as a 32?

Ans. Yes.

3. Is 3 1-4x1 1-2 (smokeless powder) too heavy a load for a Remington shotgun (full choke) to do its best work?

Ans. The load is O. K. This model will handle any standard factory load.

H. A., St. Louis.

1. Will it cause any roughness of the steel of a shotgun barrel to use bulk smokeless powder providing the barrel is cleaned well with oil after the day's shooting?

Ans. Smokeless powder will not harm a shotgun barrel in any way if it is properly cleaned. I would suggest the use of a good nitro solvent oil.

2. Would black powder give the same pattern and penetration with equal load?

Ans. Yes, approximately.

3. Would a 26 inch barrel on a 16 gauge gun pattern as well at 45 to 50 yds. as a 28 inch barrel?

Ans. For all practical purposes the pattern would be the same.

4. What is the best size shot to use in a 20 gauge. What size does it shoot the best?

Ans. This is rather hard to answer as no two barrels shoot exactly alike. Some barrels will handle one size of shot whereas another barrel of the same gauge would handle another size to better advantage. It is not a good thing to use the larger sizes of shot in the 20 gauge. About No. 7 is right.

5. Will crystal cleaner dissolve metal fouling in a rifle barrel as well as the ammonia solution? Will it deteriorate with age?

Ans. No; the regular solution for metal fouling is more effective, but the crystal cleaner is fairly effective where the metal fouling is in the form of a thin plating and not in large lumps. So far as I know, the crystal cleaner does not deteriorate with age. The regular metal fouling solution which actually re-

defeated Brooklyn by a score of 6 to 5. The game was featured by hard hitting, there being three home runs, a triple and four two-baggers. Brooklyn made a triple play.

Newark defeated Pittsburgh in an eighth inning rally when they scored two runs. At that time the score was a tie at 1 to 1. Both Moran and Knetzer pitched good ball.

Chicago and Baltimore broke even in a double header yesterday, the Whales taking the first game while the Terrapins got the second. Hendrix kept the Baltimore hits widely scattered in the first game. In the second Quinn harpooned the Whales and pinned them to the rudder of the Terrapin ship. The Whales only got one man into port and that was not until the seventh inning. In the other rounds the Whales were shipped wrecked far from land.

Chicago and Baltimore broke even in a double header yesterday, the Whales taking the first game while the Terrapins got the second. Hendrix kept the Baltimore hits widely scattered in the first game. In the second Quinn harpooned the Whales and pinned them to the rudder of the Terrapin ship. The Whales only got one man into port and that was not until the seventh inning. In the other rounds the Whales were shipped wrecked far from land.

Newark, 3; Pittsburgh, 1.
Pittsburgh, Pa., July 26.—The Newark Federal League team won today's game with Pittsburgh by a score of 3 to 1. The visitors won in the eighth when Campbell singled, McKeehlne doubled and two sacrifices followed, good for two runs.

Scores:

R. H. E.	
Newark	001 000 020—3 7 0
Pittsburgh	100 000 000—1 8 1

JACKSONVILLE MEN SAW EASTLAND SOON AFTER ACCIDENT

T. M. Tomlinson and Edward M. Dunlap Among Spectators as Work of Rescuing Passengers Progressed.

T. M. Tomlinson and Edward Dunlap returned Sunday morning from Pentwater, Mich., where they went two weeks ago in Mr. Tomlinson's Ford car. They arrived in Chicago Saturday morning from Muskegon on the steamer Virginia had heard about the Eastland tragedy just a few minutes afterward. They were on the street not far from the scene of the disaster when they met two young men in drenched clothing who had been saved from the river. They told briefly of what had happened and then the Jacksonville men hurried to the scene. The horror of the whole happening and the excitement which it brought in Chicago were almost beyond description. Fifteen or twenty minutes after the boat had turned on its side rescuers began to bring out the bodies and soon afterward truck after truck carrying bodies to the morgue were driven along the street.

The tops of buildings and freight cars on the railroad tracks nearby were all black with people watching the gruesome scene or there because they had friends or relatives among the passengers. From their place in the throng the Jacksonville men saw the artisans cut holes in the hull of the boat and later on with ropes draw up the dead bodies. Altogether it was such a scene that it was indelibly stamped on the memory of every spectator, whether or not he had a personal relationship to any of those who were lost.

The Chicago Tribune yesterday had a McCutcheon drawing which gave a very clear realization as to the impossibility of escape for many of the passengers when the steamer tipped over on its side. The picture shows how in almost a moment's time the passengers on the lower decks were thrown out into the water and forced at once into the very bottom of the muddy stream. Undoubtedly there will still be bodies recovered from the mud in which they were sunk by the crushing force of the boat as it turned over. The picture also makes it clear how hundreds were imprisoned in the hold of the vessel without an opportunity for escape even if they knew how to swim.

TAKING COURSE IN ENGINEERING

HOW TO PREPARE FOR WORK DURING HIGH SCHOOL.

Ability to Think and to Express Ideas More Important than Skill in Manual Way—Engineering Students are Often Deficient in English.

(By H. F. Moore, Department of Engineering, University of Illinois.)

What course in the high school or academy will best fit your boy for an engineering school? Shall he take a manual training course, a general scientific course, or a classical course? As a matter of fact, he can obtain a good preparation for the technical school from any of these courses as given in good high schools. The manual training course appeals to most boys, and if the shop work and drawing are well balanced by other studies—especially by strong courses in English, composition and mathematics—it often serves the invaluable service of awakening interest in study. The boy discovers that he has a brain, and that hand work may be helped by head work. The direct value of high school shop work is rather doubtful. Skill in shop work or even in drawing is of secondary importance in a college course; ability to think and to express ideas is far more important.

It is really always a serious mistake to send to an engineering college, a boy who is good in manual training subjects, but poor in English and mathematics. Such a boy will do better if he goes directly into practical work. Unless his deficiencies in mathematics and English are remedied, he will probably do poorly or fall outright in his college course.

A few boys go to high school with good habits of study already formed. They can study, whether a subject appeals to their taste or not. A still smaller group have already acquired a love for study even of abstract subjects. If your boy is member of this small "Brahmin caste" the very best course to prepare him for an engineering college is the classical course, which in all schools includes mathematics and English. There is a rigidity of requirement and a severity of drill in the study of classics which furnish fine preparation for the technical school. Your boy can pick up familiarity with machinery and industrial life during his college course.

English is the study in which most of present day engineer students are most glaringly deficient. The connection between building a locomotive or planning a sewer system for a city and the ability to write good themes is not evident to the average boy. You can help your boy greatly by pointing out that whatever line of work he follows he will again and again face the necessity of conveying his ideas to others by word of mouth or in writing. He will need at his command a store of clear, convincing, vigorous English. By all means, insist that your boy attend to his English courses in the high school, encourage him to take part in essay contests, and in debates. Again and again in his later life he will face a situation in which success of failure depends not merely on his having ideas, but on his being able to express them so that the other fellow sees things through his eyes.

He uses arithmetic, algebra, trigonometry, and calculus in his work; he commonly finds in mathematics at terms. English is placed as the study of high importance in your boy's high school course because there is more danger of his neglecting mathematics. Your boy must have a sound working knowledge of arithmetic, algebra and geometry before he enters an engineering school. You will be doing your boy a great service if you can get him to apply his school mathematics to every day affairs. Get him to figure the area of that new lot you are thinking of buying, to compute the amount of lumber needed to build the new shed, to estimate the amount of cement and gravel necessary to make the new front steps.

What is the best engineering college? Is the large school better than the small school? How may the quality of a school be tested? In the first place put out of your mind the idea that there is any "best" school which stands out pre-eminently above all others except in the minds of its loving and enthusiastic alumni. The best school for Jones' boy may be the worst for your boy. In any event your boy's success is going to depend far more on himself than on the particular school he attends.

Some boys are best developed by the large school with its crowds of students, where the successful men must learn to work with other men and to make his way in a crowd. Many a shy, home-bred country lad of sound morals and naturally keen brain needs just this contact with a crowd. On the other hand, the small school is frequently the best place for boys whose preparation for college has been irregular. Through choice or necessity, some young men spend years at work in shops, mines or railroad yards; and perhaps, a

little late in life, find that they want an engineering education. Their course of study is usually somewhat out of the regular routine, and when they enter college they have to re-establish habits of study. In the big school there is danger that such men may be overwhelmed by the rush of routine work before they "find themselves." In a small college they would be marked men from the first, and due allowance could be made for their particular training.

PROPOSALS FOR TWO SILOS.

State of Illinois, Board of Administration, Springfield, Illinois, July 22, 1915:
Sealed proposals will be received by the board of administration in its office in the Capitol building, Springfield, Illinois, up to 3 o'clock p. m. Monday, August 9, 1915, and then and there publicly opened, for constructing silos 16x20 feet, with roof, at the Illinois School for the Deaf at Jacksonville, Ill.

Bidders are to furnish with their bid complete specifications and drawings showing the silos they propose to furnish; also they are to state in bid the date silos will be completed. A certified check payable to the board of administration in an amount equal to three per cent of the total amount of the proposal must accompany the bid as a guarantee that the bidder will enter into a bonded contract to do the work in accordance with the specifications, or check must be forwarded as liquidating damages. Bidder is to mark envelope containing proposal "Bid for Silos, School for the Deaf."

The board reserves the right to reject any and all bids.

Board of Administration.
By Frank D. Whipp, Fiscal Supervisor.

BIDS FOR COAL.

Bids are hereby asked for supplying the city of Jacksonville with coal in accordance with requirements contract to take effect August 8, 1915, and to continue for one year. Bids to be received until 10 a. m. July 31, 1915, are asked as follows:

Pumping station: mine run 1 1/2 inch lump and 3 inch lump coal.
Municipal light plant: No. 2 nut, 2 inch screenings, 1 1/4 inch screenings, slack, No. 5 washed, No. 4 and 5 mixed washed, pea coal.

All coal is to be weighed upon the city scales at the pumping station or the city building as directed. Successful contractor will be required to furnish satisfactory bond in the sum of \$2,000. The council reserves the right to reject any and all bids.

R. L. Pyatt, City Clerk.

Miss Helen Emilch has returned to her home in Springfield after a visit with friends in Jacksonville. She was accompanied home by her brother, Ray, who came to the city Sunday to spend the day.

WILL SEND DELEGATES TO GOOD ROADS MEETING

Hope is That Jacksonville Will Be Well Represented at the Burlington Meeting—Road to Be Dragged Entire Length Just Before Convention Day.

If the present plans materialize Jacksonville will probably send a dozen or more automobiles filled with Good Roads Boosters to the annual meeting of the Burlington Way Good Roads Association which will be held in the city of Burlington, Iowa, Monday, August 9th, 1915, at 2:30 p. m. in the rooms of the Commercial Exchange.

Secretary Carl H. Weber of the Chamber of Commerce has been working on this project in conjunction with L. R. Craig, who is the county vice president of the "Way" for Morgan county. Mr. Craig at the last session of the grand council of the United Commercial Travelers was appointed chairman of a special committee on Good Roads for the state of Illinois and has done splendid work in behalf of better roads in Morgan and surrounding counties.

It is the intention of Secretary Weber to take a large delegation of representative Jacksonville business men and good roads boosters and make an effort to secure the next annual meeting for Jacksonville.

Literature advertising the chaqueta and Jacksonville in general will also be distributed and each car will be decorated with pennants and banners in an appropriate manner.

The Burlington Auto Club will provide a banquet for the delegates at the Burlington Hotel at 6:30 p. m. and this will be followed by a theatre party. Several other features are planned for the entertainment of the visitors.

The entire trail will be dragged the Saturday preceding the meeting and will be in splendid condition for automobiles making the trip. The distance from Jacksonville to Burlington is one hundred and thirty-five miles and an early morning start will enable the delegation to make the trip by easy stages in time for the meeting at 2:30. The party will arrange to spend the night in Burlington and make the return trip the following day. John W. Larson of the Peacock Inn is a vice president of the association and will soon have copies of the new route book.

HAVE GONE TO COLORADO.

Mrs. B. C. Andrews and daughter Miss Ethelyn and sons Blair and Niell and Misses Caroline, Baptist, Amy Pires and Mabel Oliver left Monday afternoon for Colorado Springs, Colo., for a month's stay. Miss Josie Allen of east of the city will join them soon.

RHEUMATISM

EVERY RHEUMATIC, no matter how chronic his case, should buy a 25-cent bottle of MUNYON'S RHEUMATISM REMEDY. A few doses usually bring relief, and a bottle almost invariably effects a cure. It contains no salicylic acid, no morphine, no cocaine, no dope or other harmful drugs.

I want every person who is suffering with stiff or swollen joints, muscles, tendons or ligaments to try a bottle of my RHEUMATISM REMEDY.

If constituted, use Munyon's Paw Paw Laxative Pills. MUNYON.

OUSTER SUIT AGAINST SUPT. COLLINS BEGUN

QUO WARRANTO PROCEEDINGS WERE INSTITUTED MONDAY.

Judge Burton Granted Petition Making It Possible to Hear Case at This Term of Court — Attorney Hairgrove Acting for Messrs. Imgrund and Rogerson.

The recent rumor that court action would soon be instituted because of the action taken at the board of education meeting held May 3 became a reality yesterday when William N. Hairgrove, an attorney, filed quo warranto proceedings against Charles Collins as defendant, George W. Imgrund and George S. Rogerson as members of the board of education are the relators in behalf of the people.

It was necessary for Mr. Hairgrove to go to Carlinville Monday to secure the signature of Judge Burton for authority to bring the proceedings at the present term of court. Judge Burton granted the petition and ordered that the information be filed with process returnable on Tuesday, the third day of August, when he is to hold court in this city.

The belief has been that Mr. Hairgrove as attorney would bring suit against Mayor Rodgers and Members Wells and Clamplitt asking them to show by what authority they took the action at the meeting May 3 resulting in the appointment of Charles Collins as superintendent and the naming of various teachers. Instead, the document filed is directed against Mr. Collins, but the same questions which would have been considered had the suit been brought against the board will govern.

Mr. Collins is in Chicago, but legal notice will be given him and he will doubtless return to Jacksonville some days prior to the time set for the hearing. As he is an attorney and has practiced for several years, no doubt he will work with the attorneys he may employ in preparing to answer the case as brought.

In quo warranto proceedings it is necessary for the state's attorney to sign the information, and State's Attorney Tilton affixed his signature Saturday, when the papers were prepared for presentation to Judge Burton. In view of the action taken on August 3, it will be necessary for Superintendent Collins to prove to the court that the action taken at the meeting May 3, when he was appointed superintendent for the coming year, was legal. If he succeeds in so doing the proceedings will be dismissed, and if he fails to make satisfactory proof, then a certificate of ouster will be issued. It would then be possible for Mr. Collins to take an appeal to the appellate or supreme court or if the board chose to reappoint him this action would end the controversy.

Language of Information.
The following is the language of the information filed and is supported by the affidavit of State's Attorney Tilton and by George W. Imgrund and George S. Rogerson.

Robert Tilton, State's Attorney, in and for said County of Morgan, who sues for the People of Illinois, in this behalf comes into court here on this day and for the said People, and in the name and by the authority thereof, and at the relation of George W. Imgrund and George S. Rogerson, residents and tax payers in and for the City of Jacksonville, and State of Illinois, and of Jacksonville School District in said County, according to the statute in such case made and provided gives the Court here to understand and be informed:

First: That the Board of Education of Jacksonville School District by a special act of the Legislature of the State of Illinois of February, 1867 was created in and whereby the territory within the limits of the City of Jacksonville, in said County of Morgan according to its present and future boundaries was created into a common school district. That said Special Charter of 1867 was amended by an Act of the Legislature of March 23, 1869, and the same was accepted and operated under, and it is still in existence and in operation under and by virtue of the said Special Charter granted by the legislature of the State of Illinois and as a school board is possessed of the powers and privileges granted in and by said act and amendments thereto.

Quotes Charter Provision.
Second: And the said State's Attorney further gives the Court to understand and be informed that the said Jacksonville School District so operating under the special Charter was divided into four wards, numbered One, Two, Three and Four and that from each ward there was elected by the people, the local voters of each ward, one member of the Board of Education, which said Board of Education has the exclusive control and management of all the rights and powers granted to them under the said Special Charter, and that the President of the Board under and by virtue of said Charter is the then Mayor of the City of Jacksonville, and that by virtue of said Charter a quorum to transact the business of the said Jacksonville School District, as provided by said Charter, shall consist of a majority of the Directors, with or without the President, and in the absence of one of their own body President pro tempore, and that the President shall only vote in case of a tie, when he shall have a casting vote.

Third: And the State's Attorney further gives the Court to understand, and be informed, that Charles Collins, who is made defendant herein, for more than thirty days next immediately preceding the filing of this writ and still does unlawfully hold and execute the office of Superintendent of the Schools of said Jacksonville School District, a position of General Superintendent of Schools being a position created by and under the said Special Charter; and is now holding himself out as such Superintendent of said schools and is unlawfully exercising the privileges, and franchises incident to such position and he is usurping the functions of the Superintendent of Schools of Jacksonville School District, unlawfully, to the damage and prejudice of said People of the State of Illinois and against the peace and dignity of the same.

Whereupon the said Robert Tilton, State's Attorney, as aforesaid for the said People of the State of Illinois and in the name and by the authority thereof, at the relation of George W. Imgrund and George S. Rogerson, prays the consideration of the Court herein, in the premises, and due process of law against the said Charles Collins and that he answer the said People by what warrant he has to use and enjoy the rights, liberties, power, privileges, immunities, licenses and franchises of the Superintendent of Schools of the Jacksonville School District of the County of Morgan and State of Illinois, as aforesaid.

Robert Tilton, State's Attorney in and for said Morgan County.

MORTUARY

McCaffrey.

The funeral services of Mrs. Mary Ann McCaffrey were held from the family home on South Main street Sunday afternoon at 1:30 o'clock. The services were in charge of the Rev. J. W. Miller, pastor of the Grace M. E. church. There was a large number of friends and relatives to pay a last tribute of respect to the memory of the deceased.

Suitable music was furnished by Miss Ima Berryman and Miss Marie Miller. There were many beautiful floral offerings and these were in charge of Miss May McCaffrey, Mrs. Sadie Large and Douglas Hickey and Frank Wannamaker.

Interment was in Diamond Grove cemetery and the bearers were: F. C. Benson, Phillip Gorman, P. W. Berry, Samuel Perry, James G. Strawn, T. B. Reeve.

Harrison.
Miss Hazel Harrison, colored, died at the residence on South Church street at 4 o'clock Monday after an illness of five weeks. Deceased was born in Paynesville, Mo., April 6, 1896. She had resided here for a number of years. She was a faithful member of Bethel A. M. E. church.

She is survived by her father, W. D. Harrison, of Hutchinson, Kas., her mother, Elizabeth Browne, and two sisters, Mattie G. Harrison and Missouri Ann Harrison, all of this city. The funeral will be held from Bethel A. M. E. church Wednesday afternoon at 2:30 o'clock and interment will be in Jacksonville cemetery.

Sponsler.

Mrs. Mary Sponsler of Roodhouse died at Passavant hospital Sunday evening at 10:20 o'clock of pulmonary embolism following an operation for appendicitis. Mrs. Sponsler has been visiting relatives here and was taken ill last Tuesday and taken to the hospital where she was operated on for appendicitis. The operation was successful and she was apparently improving when the disease that caused her death set in. The body was removed to the Reynolds undertaking parlors and prepared for burial and taken to Roodhouse Monday afternoon.

Deceased was a daughter of Elijah and Nancy Long Carlton and was born near Alsey in Scott county, January 20, 1854. She was united in marriage in 1869 to Henry Sponsler, who preceded her in death in 1903. She leaves no children of her own but is survived by a step son, William Sponsler, who resides in St. Louis. She is also survived by four sisters, Mrs. Caroline Hoots and Mrs. Eliza Flynn of Alsey, Mrs. Emmaline Arnold of 707 Finley street, Jacksonville and Mrs. Levi Hoots who lives in Rushville. There also survive the following nieces and nephew, Mrs. Fred Lewis, who lives on the Morton road, Mrs. Godfrey Tendick of the Point neighborhood, Charles Arnold of Literberry and Mrs. John Blakeman of Knapp.

Mrs. Sponsler was a member of the Baptist church and also a member of the Royal Neighbors. The time for the funeral has not been set.

Filkin.

Charles Douglas Filkin, son of Charles and Nora Beach Filkin of Dunlap street, died at Passavant hospital Monday night at 9:20 o'clock. He had been ill for the past three weeks.

The deceased was born in this city September 9, 1907, and all his life was spent here. He is survived by his parents and three sisters and one brother, Cora, Bessie, Nora and Lillie and Richard Filkin. The time of the funeral has not been set.

Films for all cameras. GILBERT'S PHARMACY.

BAD CUTTING AFFRAY AS RESULT OF KEG PARTY

John Ryan Stabbed and Slashed by Reuben Jones—Injured Man in Hospital and Assaultant in Jail.

John Ryan of Franklin is at Our Savior's hospital suffering from a number of knife wounds while his assailant, Reuben Jones is in the county jail under bond of \$500, charged with assault with intent to kill. The affair is the culmination of a keg party which was held at Franklin Saturday night.

The keg party was being held at the home of Mrs. Ethel Richardson. So far as the facts can be learned there was about five or six present and they were talking of the possibility of some one stealing the keg. Ryan came around the house about that time and Jones thought he was after the keg and went after him.

Ryan received a long gash on the right breast, a stab in the right wrist and a stab in the muscle of the right arm above the elbow. This was of such force that the bone was broken and also the knife blade was broken and remained embedded in the bone. Ryan was brought to the hospital and attended by Dr. P. A. Norris. Dr. Norris said Monday that he did not believe that Ryan's injuries would result seriously though nothing could be told for a few days. Ryan is suffering a great deal from the shock but it is expected that in a few days an operation will be performed to remove the knife blade. An X-ray was taken of it Monday morning.

When the nature of Ryan's injuries were discovered Jones was placed under arrest Sunday afternoon by Deputy Sheriffs B. C. Andrews and Harry Norris. He was taken before Justice Dyer Monday morning and waived examination and in default of bond in the sum of \$500 was sent to jail.

SPECIAL NOTICE

There will be no home grown peaches this year for canning. Therefore it will be necessary for us to secure our supplies from the south. We have today 400 BUSHELS OF FANCY ALBERTA FREE STONE PEACHES which will be on sale at all the grocers at reasonable prices. Every family in the city should take advantage of this opportunity to secure at least one bushel of these fine peaches. Don't put it off waiting for lower prices as perhaps they are cheaper today than they will be again this season.

CANNON & KELLY, Distributors.

Warren Canaday of Hillsboro was transacting business in the city yesterday.

DAYLIGHT ROBBERY AT COMPANY B. ARMORY

Copper Coil Stolen from Shower Bath Heater—Have Clue to Guilty Persons.

Thieves broke into Armory Hall Monday and stole the copper coil off the water heater connected with the shower bath which had been installed by company B. The heater is located in the east room which is usually used for a ladies cloak room when public dances are given. Monday morning Sergeant L. P. Burke, who is quartermaster for the company went to the armory. The thieves had been at work then and had tipped the heater to one side in attempting to get the copper coils loose. They started the water to leaking and had evidently got scared or else they found they could not complete the job without tools. They secured a wrench and went back some time during the afternoon and finished the job.

Capt. Owen came down from Springfield on the afternoon train and the theft was discovered by him and Sergeant Burke Monday evening. The main doors to the hall were locked. Mr. Burke thinks the thieves either carried the coils down the fire escape on the east side of the building or else let them down from a rear window into the alley. It is more probable that the latter was the way the coils were taken from the building.

Capt. Owen said last night that he had a pretty good idea who had done the work. The person suspected has been loafing around the hall during drill nights for some time and Capt. Owen believes that the guilty party or parties will soon be apprehended.

After the coils were removed water leaked down into Obermeyer's drug store but fortunately nothing was damaged.

SPECIAL SALE OF WHITE WOOL SUITS, COATS, DRESSES AND SKIRTS TOMORROW.

AT HERMAN'S.

STUNNED DURING STORM.
S. M. Hussey while sitting on the porch at the residence of Mr. and Mrs. George S. Beekman in the vicinity of Pisgah, Sunday, during the progress of the electric storm, was stunned by the effects of electricity in the air and fell to the floor. He was in bad condition for a short time but Monday morning had recovered from the effects of the attack and was feeling all right.

BIRTH RECORD.

Word has been received by friends of the family in this city announcing the birth of a daughter, Mary Felicia, to Mr. and Mrs. Homer Curtiss at their home in Florida.

RESOLUTION FOR PAVING PASSED BY IMPROVEMENT BOARD

Provides for Tarvia on South Main From Morton Ave to Square—Hearing Set for August 9th—Total Cost Estimated at \$20,349.16.

A meeting of the board of local improvement was held immediately after the city council session yesterday afternoon, when a resolution was passed providing for the construction of a tarvia pavement on South Main street from the square to Morton avenue. The resolution provides for a public hearing in the council chamber at 2 o'clock Monday, Aug. 9th, and then proper ordinance will be passed with the expectation that the whole improvement can be made before cold weather. Engineer Henderson's estimate as to the total cost of the improvement is \$20,349.16. The cost items are figured as follows:

13121 sq. yds. tar macadam wearing surface complete in place @ 90c per square yard	\$11,808.90
3121 square yards brick pavement in place @ \$1 per square yard	3,121.00
3121 square yards crushed stone foundation @ 25c per square yard	780.25
4511 square yards concrete foundation, 6 inches in thickness @ 60c per square yard	2,706.60
172.7 cubic yards sand cushion @ \$1.25 per cubic yard	215.88
3121 square yards grout filler @ 12c per square yard	374.52
2-brick catch basins with cast iron top @ \$30 each	60.00
6-cast iron inlets @ \$14.50 each	87.00
Court costs and other lawful expenses attending same	1,151.84
Total	\$20,349.16

DEAD ANIMALS HAVE LARGE COMMERCIAL VALUE

Commercializing By-Products Brings Profit—Government Condemns Burying or Burning Dead Animals.

Dead animals have such value for the manufacturers of fertilizer and any other method of disposing of them is to be condemned, says a recent circular issued by the Department of Agriculture, Washington. The fertilizer materials obtained from them are equal, if not superior, to those obtained from high-grade slaughter house tankage, a nitrogen carrier of such value that it has to a greater extent been withdrawn from the fertilizer trade and devoted to cattle feeding.

Various methods of disposing of the city's dead animals are in vogue at present, such as burying, cremating and rendering. Of these, there is little to recommend burying. Rendering is to be commended, since it is the only method from which revenue is derivable. Cremation has a value only when an animal has died of some communicable disease, danger of the spread of which is minimized by the utter destruction of the animal. This probably is never a matter of any great importance, except when the disease is communicable to man, since, in rendering, the parts cooked are thoroughly sterilized, and the hide and bones are confined to places and uses such that the spread of disease to other animals is not at all likely.

Hides Are Preserved.
Dead-animal tankage is prepared by the simple process of rendering: the carcasses, in the case of large animals, are skinned for the preservation of hides, cut up and cooked in steam at high temperatures. The tankage is then pressed to remove the major portion of the water and to recover the grease and is afterwards dried and ground. The products obtainable are hides, bones (where their value as such is greater than when sold as an ingredient of the tankage), grease (tallow), and tankage.

BIG CUT TOMORROW IN WHITE WOOL SUITS, COATS, DRESSES AND SKIRTS.

AT HERMAN'S.

HAVE ASSURANCE BOAT IS SAFE FOR TRAVEL.

Trades and Labor Assembly Planning for Excursion Thursday.

The Trades and Labor Assembly have completed plans for the excursion to be run Thursday, July 29. The committee in charge has received a telegram from the owner of the steamer Verne Swain which has been chartered for the trip. The committee also has arranged with W. B. Miser who has promised to have plenty of street cars at the station upon the return of the train to take the excursionists to their homes. The telegram from the steamboat company follows:

Peoria, Ill., July 26, 1915.
Trades & Labor Assembly, Jacksonville, Ill.
Our steamer Verne Swain being built expressly for excursion traffic it is not a made over or reconstructed steamboat, but brand new. Is the only excursion steamer on western rivers with one exception, that was built exclusively for excursion service. For strength and safety this boat is unsurpassed and ranks A-1 with insurance companies. It was inspected and passed U. S. inspectors June 5, 1915. I refer you to Mr. Buffe, cashier Ayers National Bank, your city.
Percy Swain.

Our sale is on and we ask our friends and customers to call and supply their wants at from 20 to 50 per cent reduction at TOMLINSON'S.

FRIENDS ARE SAFE.

Mrs. J. B. Perkins, east of the city, has received a letter from her son, Clyde Todd, whom it was thought had been in the Eastland catastrophe. He writes that he intended to go on the boat but the young lady who was to accompany him could not make suitable arrangements to take the first boat, which accounted for the safety telegram he sent home Saturday night. Michael Cleihan has received a letter from his adopted son, Sylvester Cleihan, stating that he did not go on the excursion.

Mrs. Frank Lohman received a telegram Saturday night, stating that her two nieces, Misses Josephine and Marie Price, were saved at the capizing of the Eastland.

Our \$1 shirts 75c, at TOMLINSON'S.

ARRESTED ON CHARGE OF LARCENY

Fred Ritchie was arrested Saturday night on a warrant sworn out by Troy Smock charging him with larceny. Ritchie has been working for Smock, who is a farmer residing near Murrayville. About a week ago Ritchie disappeared and with him disappeared \$11 which belonged to Smock. Saturday night Smock saw him on the streets here and had him arrested. He will have a trial before Justice Dyer. It is understood that Smock has no desire to prosecute Ritchie but is willing to let the case drop if he gets his money back. It is probable that the case will be settled out of court.

This is peach day in Jacksonville.

HAVE GREAT ACT.
One of the best vaudeville acts seen at the Grand in many days is that of McConnell and Austin. This pair have what they call a novelty bicycle act. It is a novelty and incidentally great. The things they do on two wheels and one wheel are wonderful.

HOUSE-WORK MADE EASY

SELLERS KITCHENEEDS FITTED WITH SELLERS NEW PORCELAIN TABLE TOP

Can now be bought at this store for the first time in this city.

This New Table Top is the greatest improvement that has been made on kitchen cabinets in years and is the only absolutely perfect work table on the market. It is as white as snow and as easily cleaned as a china plate. Heat or cold can not affect it. Its glossy surface, as smooth as plate glass and as hard as flint, remains the same after years of use and with ordinary care will last a lifetime.

Just Think This Over. When you buy your kitchen cabinet, you will want and have a right to expect one that will give you years of service. The work table should be made of material that will last as long as the cabinet, can be easily cleaned and kept clean.

For years, all cabinet manufacturers have covered their work tables with nickeloid, nickelene or aluminum. All of these materials have been found wanting in some respect and begin to show signs of wear from the first day they are used. Then, too, these tables were placed alike on all grades of cabinets and you were offered no better work table with the high grade cabinet than you were with the moderate and low priced ones.

There has been a growing demand for a table top that would "stand the test of time". That demand can now be satisfied with this new "Porcelain" work table on any Sellers Kitcheneeds.

You are cordially invited to call and inspect our new line of Kitcheneeds fitted with these new work tables. We agree to prove to you by actual test at our store the superiority of this Table Top over others and to make good all our claims for it.
